- 10.1.7. The Client shall be responsible for any Orders and Instructions submitted by the Client and for the accuracy of information, provided to WaveTrade Ltd by means of e-mail or otherwise on behalf of the Client, passwords and other details, used for the identification of the Client.
- 10.1.8. Client Orders/Instructions sent to WaveTrade Ltd out of WaveTrade Ltd normal working hours, when WaveTrade Ltd is closed and/or when it is not a business day, are and shall be binding for the Client. Such Orders/Instructions shall be considered sent by the Client and received by WaveTrade Ltd at the first Business Day following the day they were actually sent.
- 10.1.9. Should WaveTrade Ltd need to obtain from the Client certain documents necessary for the execution of and settlement under any Order/Instruction, including an authorisation entitling WaveTrade Ltd to perform respective legal and practical actions, the Client shall provide such documents within reasonable time, unless specific time frames are set by WaveTrade Ltd in its request. WaveTrade Ltd is allowed to refrain from performing Client's Order/Instruction until it has received all documents requested from the Client.
- 10.1.10. Any Order/Instruction submitted in writing in a paper form (scanned copy or original copy) shall be valid only if signed by the Client or its Authorised Person. If the Client is a corporate body the corporate seal, if any, shall be affixed to any Order given in writing
- 10.1.11. Some of the types of orders WaveTrade Ltd accepts include, but are not limited to:
- a) Good till Cancelled ("GTC") – An order (other than a market order), that by its terms is effective until filled or cancelled by Client. GTC Orders are not automatically cancelled at the end of the Business Day on which they are placed.
 - b) Limit – An order (other than a market order) to buy or sell the identified market at a specified price. A limit order to buy generally will be executed when the ask price equals or falls below the bid price that you specify in the limit order. A limit order to sell generally will be executed when the bid price equals or exceeds the ask price that you specify in the limit order.
 - c) Market - An order to buy or sell the identified market at the current market price that the Company provides via the Online Trading System. An order to buy is executed at the current market ask price and an order to sell is executed at the current market bid price.
 - d) One Cancels the Other ("OCO") – An order that is linked to another order. If one of the orders is executed, the other will be automatically cancelled.
 - e) Stop Loss – A stop loss order is an instruction to buy or sell a market at a price which is worse than the opening price of an open position (or worse than the prevailing price when applying the stop loss order to an already open position). It can be used to help protect against losses.
- Please note that because of market gapping, the best available price that may be achieved could be materially different to the price set on the stop loss order and as such, stop loss orders are not guaranteed to take effect at the price for which they are set.
- f) Trailing Stop – A trailing stop is the same as a stop loss order with the only difference being that, instead of setting a price at which the order is activated, the trailing stop order is activated at a fixed distance from the market price. For example, if Client has purchased a long open position and the market ask price increases, the trailing stop price will also increase and will trail behind the market ask price at the fixed distance set by Client. If the market ask price, then decreases, the trailing stop price will remain fixed at its last position and if the market ask price reaches the trailing stop price,

the order will be executed. Please note that because of market gapping, the best available price that may be achieved could be materially different to the price set on the trailing stop order and as such, trailing stop orders are not guaranteed to take effect at the fixed distance for which they are set. Following submission of an order, it is your sole responsibility to remain available for order and fill confirmations, and other communications regarding your Account until all open orders are completed. Thereafter, you must monitor your Account frequently when you have open positions in the Account.

- g) Your order shall be valid in accordance with the type and time of the given order, as specified. If the time of validity or expiration date/time of the order is not specified, it shall be valid for an indefinite period.

- 10.6.4. Where you provide us with specific instructions, either relating to an order or a particular aspect of an order, we will execute the order in accordance with those instructions.  - b) The Client transmits to WaveTrade Ltd an Order to enter into a Transaction by means specified in these Terms or the relevant Agreement;

- 10.10.2. If the Client fails to take any actions WaveTrade Ltd may at its own discretion take actions necessary to ensure the Client's fulfilment of the said obligations.

11. TRADING IN CFDs

- 11.1. Clients must be aware that CFD transactions carry a high degree of risk. The amount of initial margin may be small relative to the value of the foreign currency so that transactions are 'leveraged' or 'geared'. A relatively small market movement may have a proportionately larger impact on the funds that the Client has deposited or will have to deposit. This may work against as well as for the client. The Company exclusively reserves the right to adjust leverage, change its commission rates and/or increase the margin requirements without notice under certain market conditions including, but not limited to, when the Reception and Transmission of Orders Department is closed, around fundamental announcements, as a result of changes in credit markets and/or at times of extreme market volatility. In such circumstances, the Client agrees to indemnify the Company for any and all losses that may occur due to the adjustment of leverage.
- 11.2. WaveTrade Ltd offers a "Negative Balance Protection Policy" to its Clients as part of its Terms & Conditions, in order limit the Retail Client's aggregate liability for all CFDs connected to that Client's CFD trading account with WaveTrade Ltd to the sum of (i) available funds in the account from initial margin and variation margin; (ii) any profits in respect of open CFDs; and (iii) any realised profits in respect of closed CFDs remaining in the CFD trading account. As per negative balance protection requirements any fees, charges or interest arise per account, never exceeds Client's available funds in the specific account i.e., WaveTrade Ltd must ensure that the maximum loss for the Clients on an account basis, never exceeds the Clients' available funds in the specific account. A negative balance in one account may NOT be settled with the positive balance in another account. The Negative Balance Protection Policy is applied to all Clients as long as it is not abused and is accepted in good faith. In case of any manipulation of this policy WaveTrade Ltd reserves the right to exclude any Client from the program in its sole discretion.
- 11.3. WaveTrade Ltd implements a "margin close-out rule" which is applied on an account basis (rather than a per position basis) across all open CFD positions in a Client's account based on 50% of the initial margin required. The application of the "margin close-out rule" implies that a Retail Client's open CFD must be closed out on terms most favourable to the Client at the point in time when the sum of funds in the CFD trading account and the unrealised net profits of all open CFDs connected to that account falls to less than half (50%) of the total initial margin protection for all those open CFDs. For instance, for a CFD with a leverage limit of 1:5, minimum initial margin is 20% of initial total exposure, so if the overall margin allocated to the CFD falls below 10% of initial total exposure, the CFD must be closed out regardless of how much money was available on the account.
- 11.4. Before providing to Retail Clients Services with respect to CFDs products, WaveTrade Ltd performs an appropriateness test, which means that WaveTrade Ltd shall assess whether certain Service or Financial Instrument is appropriate for the Client based on the information provided by the Client.
- 11.5. When entering into Transactions in CFDs, without prejudice to the rights of WaveTrade Ltd set out in the Terms, the Market Rules shall apply. The Client shall carefully read such rules and shall be solely responsible for any implications thereof.
- 11.6. The Client shall transfer the collateral required under the relevant Transactions in CFDs in the form of cash only, unless otherwise agreed with WaveTrade Ltd. The amount of the collateral shall be determined by WaveTrade Ltd at its own reasonable discretion with respect to each Client's position taking account of the requirements of the relevant exchange and clearing house rules. The Client shall be obliged to monitor the amount of its collateral and adequacy of such collateral with regard to its open positions, and shall be liable to WaveTrade Ltd for a failure to keep the collateral at the level required by WaveTrade Ltd. WaveTrade Ltd is entitled to change its margin requirements without giving any additional notification to the Client.
- 11.7. WaveTrade Ltd performs any necessary or expedient transfers, connected with trading in CFDs, including, without any limitations, payment of exchange fees, debiting and crediting the variation margin, without prior notification of the Client and in accordance with provisions of the Terms.
- 11.8. In case when WaveTrade Ltd closes Client's positions, an amount of commission payable to WaveTrade Ltd in accordance with WaveTrade Ltd Fee Schedule and any payments made by WaveTrade Ltd to any third parties as a result of the mandatory closing of Client's positions shall be debited from the Client's Account. WaveTrade Ltd shall not be liable to the Client for any consequences of mandatory closing Client's positions.
- 11.9. This provision does not limit anyhow the right of WaveTrade Ltd to open several separate Client's cash or custody accounts (account sections) intended
- 18.1.3. for separate record keeping of the monetary funds and/or Financial Instruments of every client.
- 18.1.4. This provision does not limit, however, the right of WaveTrade Ltd to treat its Financial Instruments and Financial Instruments of the Client as fungible instruments where identification of a particular Instrument may not always be possible. The Client agrees that it has no right to particular Financial Instruments deposited with WaveTrade Ltd (or with its Custodians) while the Client is entitled, with observance of the Applicable Law, to transfer to or from WaveTrade Ltd that amount of Financial Instruments of the same kind equivalent to the amount of Financial Instruments recorded on Client's Account.
