

BOOSTERS

The solid rocket booster is designed for the smooth, stable, and fast start of various small class UAVs such as planners, flying wings, etc.

PARAMETERS

Diameter: 57 mm
Length: 255 mm
Weight: 1.98 kg
Thrust: 60 kg force
Working Time: 1 sec

SRB-57

PARAMETERS

Diameter: 89 mm
Length: 407 mm
Weight: 6 kg
Thrust: 140 kg force
Working Time: 1.5 sec

SRB-89
