

See exactly where your AI tokens go.

Graphiant gives you a clear view of the token consumption driving AI spend across your organization.

ORGANIZATION-WIDE

24.8M tokens

One view across AI tools, teams, and users.

AI TOKEN VISIBILITY

From AI adoption to AI accountability.

AI usage is growing fast. Graphiant helps you understand where that usage is happening so you can manage spend with better context - without relying on disconnected reports from every AI service.

AI TOKEN USAGE

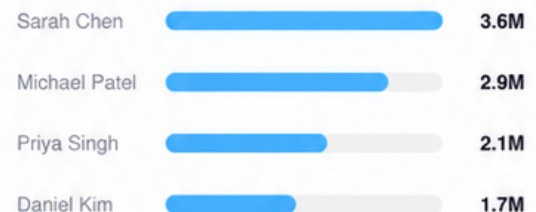

24.8M total tokens

Last 30 days

Usage by AI tool

Top token users

01

Know the total

Track organization-wide token consumption in one place.

02

See what drives it

Break usage down by AI tool and see which users consume the most.

03

Catch surprises early

Spot unexpected spikes or heavy usage before they become a bigger spend issue.

Stop guessing what AI is costing you.

See the token usage behind your AI spend - across your entire organization.
