

graphiant

WHY GRAPHIANT. WHY NOW.

CUT COSTS. SECURE DATA. ENABLE AI.

One secure, intelligent network fabric to connect your enterprise, clouds and AI infrastructure.

UP TO 90%

lower network costs

70%+

cloud egress savings

60%+

lower total cost of ownership

THREE REASONS TO ACT NOW

01 SAVE MORE

Cost-effective by design

Replace fragmented circuits, appliances and licenses with a single subscription and usage-based pricing.

Free SD-WAN, SASE and ZTNA | Scale on demand

02 SECURE EVERYWHERE

Protection built into the fabric

Protect data in motion across sites, clouds and partners with encryption, Zero Trust, segmentation and policy controls.

DLP | Threat detection | Post-quantum readiness

03 BE READY FOR AI

Visibility and control for AI

Understand AI application usage, token consumption, data movement and performance while connecting AI infrastructure privately.

AI spend visibility | Data assurance | Private AI access

Illustrative outcomes from Graphiant customer deployments; results vary by environment.

THE COST OF WAITING IS RISING.

Deploy in minutes. Scale on demand. Pay for what you use.
