

Intelligent GRC, Resilient Cyber

Partner Program

LockThreat Partner Program

At LockThreat, we believe that partnerships are the foundation of innovation, growth, and success in today's evolving digital landscape. Our Partner Program is designed to create mutually beneficial collaborations by providing partners with the tools, knowledge, and support necessary to deliver industry-leading Governance, Risk, and Compliance (GRC) solutions.

Through a structured, tiered program, partners gain access to progressive benefits, including training, co-branded marketing opportunities, financial incentives, and exclusive collaboration with LockThreat's product and sales teams. Whether you are a Lead Generator, Reseller, Consultant, or Technology Partner, our program is built to support your business model.

 **Naeem Hussain, CEO**

AI-Powered GRC for the Future

LockThreat is redefining Governance, Risk, and Compliance with an AI-driven approach. Traditional GRC solutions rely on outdated, manual processes that slow businesses down. LockThreat transforms compliance and risk management into an intelligent, predictive, and automated function—allowing enterprises to focus on growth while maintaining security and compliance.

AI at the Core

Our proprietary AI engine automates compliance mapping, control validation, and risk analysis, eliminating the manual burden of audits.

Real-Time Insights

Instead of relying on static reports, LockThreat delivers continuous risk monitoring and real-time compliance validation.

Industry-Tailored Solutions

We support over 150+ frameworks across industries, ensuring compliance efforts align with specific regulatory landscapes.

Partner Program Overview

The LockThreat Partner Program is designed to create a mutually beneficial ecosystem of partners who leverage our cutting-edge GRC solutions to drive innovation and growth. The program aims to expand LockThreat's reach into new markets and enable partners to enhance their service offerings, increase revenue, and provide exceptional value to their customers.

Technology Partners

Companies that integrate their solutions with LockThreat's products to provide complementary services.

Consulting Partners

Organizations that implement and customize LockThreat solutions for their clients, providing expertise in GRC.

Reseller Partners

Companies that market and sell LockThreat products at a discounted rate, allowing them to generate profit margins.

Lead Generator Partners

Partners who provide sales-qualified leads to LockThreat and receive a 5% commission on successfully closed deals.

Partner Onboarding Process

To become a LockThreat partner, interested organizations can apply through the partner portal. We provide a structured onboarding program to ensure new partners can quickly integrate and begin delivering value.

Online Application

Fill out the partner program application form through our partner portal to begin the process.

Initial Review & Onboarding Call

LockThreat will evaluate your application and schedule a call to discuss partnership goals, expectations, and available discounts or commissions.

Partnership Agreement

Sign the formal agreement outlining roles, responsibilities, benefits, and discount structures or commission rates.

Program Fee & Access

Pay the program fee (if applicable) and gain access to partner resources, training materials, and a dedicated onboarding specialist.

Partner Enablement

LockThreat provides extensive training resources and robust support to help partners succeed in selling, referring leads, and deploying our solutions. Our enablement program ensures you have the knowledge and tools to effectively represent LockThreat in the market.

Training & Education

- Self-paced online learning modules
- Certification programs with vouchers
- Instructor-led webinars on products and strategies

Sales Support

- Comprehensive sales toolkits
- ROI calculators and case studies
- Demo environments and presentation materials

Technical Resources

- Dedicated technical advisors
- Partner knowledge base access
- Sandbox environments for testing

Partner Incentives & Tiers

LockThreat offers a tiered partner program with increasing benefits and requirements at each level. Our incentive structure rewards partner success through product discounts, referral bonuses, and high-performance incentives.

Partner Responsibilities & Performance

Tracking

LockThreat expects all partners to adhere to a professional code of conduct and meet specific requirements to maintain their partnership status. We track partner performance through key metrics and provide regular feedback to ensure mutual success.

Partner Conduct

Maintain integrity, compliance with laws, and respect in all business dealings

Continuous Improvement

Review quarterly scorecards and adjust strategies to achieve growth

Performance Metrics

Track revenue, deal registrations, lead quality, and customer satisfaction

Program Compliance

Meet annual revenue targets, certification requirements, and deployment goals

Our Commitment to Partners

At LockThreat, we believe that true success is built through strategic partnerships. Our commitment is not just to provide a partnership program—it's to create an ecosystem where our partners thrive, grow, and differentiate themselves in the market with cutting-edge AI-powered GRC solutions.
