

Heights Tutorial Class Description

Course Title: Geometry

Teacher: Mrs. Reeves

Grade Range: 9th-11th grades

Minimum of 6 students required to start

Credit level (high school): Half Credit _____ Full Credit X

Costs

Tuition: \$475

Fee:

Course Description:

This course will provide a basic tool for exercising wise dominion in God's world. Geometry is a branch of mathematics concerned with properties of space such as the distance, shape, size and relative position of figures. This course will also develop the comprehension of spatial relationships. The skills set learned in this class are used in real life situations and will be presented to the students in that context.

Prerequisites:

Algebra 1

Textbooks Required:

Geometry 4th Edition BJU

Supply List:

Access to Google Classroom. (Free)
calculator TI-83. or TI-84
