

Heights Tutorial Class Description

Course Title: 6th Grade Math

Teacher: Jenna Boyd

Grade: 6th

Day of week: Tuesdays

Time: 10:05-11:30

Minimum of 6 students required to start

Tuition: \$425

Course Description

Math 6 using the BJU Press curriculum builds a strong foundation in mathematical reasoning, problem-solving, and computational skills. Students develop proficiency in whole numbers, fractions, decimals, ratios, percents, geometry, and introductory algebraic concepts through systematic instruction and regular practice. The course emphasizes accuracy, logical thinking, and real-world application while reinforcing biblical worldview principles such as order, precision, and stewardship. Through guided lessons, independent work, and cumulative review, students gain confidence and readiness for higher-level math.

Instructional videos will be provided by the tutor throughout the week for each lesson. Assignments will be posted on Google Classroom. Class time will be used to answer questions and review harder concepts. Testing will be done at home and turned into the tutor for grading. It will be up to the guardian to proctor the test as they see fit.

Prerequisites

5th grade math

Textbooks Required

Math Grade 6 Student Text, 4th edition: ISBN-13: 9781646260300

Math Grade 6 Assessments, 4th edition: ISBN-13: 9781646260324

Supply List

Notebook paper

Pencils

Three ring binder 3 inches

Dividers

Colored pencils

Fine dry erase markers and eraser

Scientific Calculator - Texas Instruments TI-30XIIS
