

## Heights Tutorial Class Description

**Course Title:** Advanced Biology with Lab (Human Anatomy & Physiology)

**Teacher:** Nicole Payne Evans

**Grade Range:** 11<sup>th</sup>+

**Day:** Thursday

**Time:** 12:30-1:55pm

**Minimum of 6 students required to start the class.**

**Credit (for high school):** 1.0 full credit with lab

**Costs:**

Tuition: \$475

Lab fee: \$75

### **Course Description**

Apologia's *Exploring Creation with Advanced Biology: The Human Body*, 2nd Edition is a college-prep homeschool curriculum that offers an in-depth study of human anatomy and physiology from a Christian perspective. It's designed for high school students who have already completed a first-year biology and chemistry course. The textbook is written to your student in a conversational tone and cultivates independent learning. They'll learn about the body's organ systems, ranging from the digestive and respiratory systems to the endocrine and lymphatic systems. It also covers the reproductive system in detail, but is done so with respectful illustrations and descriptions. In this course, your student will be challenged, but also supported as they work through the science concepts. Most of the experiments will be completed in class.

### **Prerequisites:**

Students should have successfully completed both high school biology and chemistry before beginning Advanced Biology (Human Anatomy & Physiology) to ensure they are prepared for the content and vocabulary presented.

### **Textbooks Required:**

**Apologia's *Exploring Creation with Advanced Biology***, 2nd Edition

ISBN# 978-1-946506-60-3

**Kaplan's *Anatomy Coloring Book***, 10th Edition

ISBN# 978-1-506295-26-8

**Apologia's *Exploring Creation with Advanced Biology student notebook*** (*optional*)

ISBN# 978-1-940110-38-7

### **Supply List**

\*Pens/pencils/colored pencils

\*2" 3-ring binder

\*College ruled notebook paper

\*Lab notebook (unlined if preferred)

\*Dividers
