

# The Booster Photo studio

## The Studio space for rent

**Our 1600 sq ft space is ideal for indoor photoshoots, portraits, headshots, family photo sessions, product photography.**

The Booster is a perfect place for **manifest any kind of your visual ideas.**

We have a **full park of professional equipments** to support your creativity.

From stands, constant lights, flashes, light shapers, gels, backdrops to a large monitor display and fog machine the studio is ready to **cover your technical and creative needs.**

The four windows at the back of the studio provide a **nice directional natural light source.**

**You can save more if you use the space for more hours!**

We know that good work requires more time. Our price system is designed to give you lower prices with each additional working hours.

Check out our pricing list!

## Assistance - Education- Mentoring

### ASSISTANCE

With professional assistance you don't have to worry about **building the set**, adjusting all moving parts yourself, so you can focus on your client and **make the session comfortable for both of you.**

**Save time and stress as we assemble and dismantle all the equipments you need** for an additional price of \$50/hour.

### EDUCATION

Are you insecure in your camera settings, manage posing, or how to use artificial lights?

**We are here to help you!**

Facing all the **theory** and **practical knowledge** of photography can be intimidating at first.

You get more confident in your art as **we guide you through the main aspects of visual communication, composition, posing, lighting or editing.**

**Find our master educator for individual or small group courses in these topics!**

Personal or online courses are always available for photo enthusiasts for \$80-100/hour.

### MENTORING

Experience comes with **practice.**

If you are playing with the idea to **become a pro photographer**, this can be the **most important step** toward that goal.

Our accredited professional photographer Jani Lakatos is dedicated to **help your sessions with mentoring, and teaching all the skills** you might need for your successful photography carrier.

We rehears **real life situations** building photo sessions from start to finish.

In this **safe environment** you'll earn the **practical skills without the pressure** of proving yourself in front of a paying client.

You can also **join real life photoshoots as an apprentice** beside our photographer. This is the **best way to experience** how to communicate efficiently with clients while managing all moving parts of a session.

As this discipline requires a **long term commitment**, we offer as many opportunities to learn and improve as possible for \$1000 each month.
