A Focus on Our Disaster Relief Ministry

June 1st started the beginning of Hurricane Season, which goes through October. Here in our area, and the Gulf Coast Region, we understand the devastation that can be caused by hurricanes and other natural disasters.

So, this weekend we will focus on our **FBCcov Disaster Relief Ministry**.

This ministry is called out in times of crisis that can involve hurricanes, tornadoes, floods or anything considered a natural disaster.

Our goal is to equip and train volunteers to respond to catastrophic weather events whether locally or somewhere else in the US. We are dedicated to training both for skill and for safety.

Volunteers are needed to bring help and hope to the families and communities affected. This help can be in the form of chainsaw gangs and front-loaders to meal preparation, serving, and Chaplaincy.

To give you a true view of the expanse of our ministry, there is a table set up in the Connection Center with information. We also have some of our equipment on display in our SOUTH PARKING LOT.

Please take the time to come by and talk with us about what we have done in the past – and our goals for the future.

To register or receive more information you can go to the [fbccov.org website](http://fbccov.org) | Missions | Disaster Relief | Serve Form | Other Information – Disaster Relief, or stop by the Disaster Relief Table this weekend.
