Éclat du teint
DERMACOSMETIC

Innovative Medical Skin

Through constant research, we have introduced soothing care products for post-treatment and problematic skin care.

Manufactured in Korea, our clinical skincare products are used by dermatologists, plastic surgeons, and medi-spas to complement routine home care and aesthetic treatments. We formulate to address signs of aging, protect healthy skin and prevent future damage.

The choice of doctors and skin care professionals

Doctors and skin care professionals define Éclat du teint as products on the cutting edge between cosmetics and pharmaceuticals. The active ingredients in Éclat du teint are expected to be clinically proven to enhance skincare efficacy. Éclat du teint's products are elegantly formulated for customized skincare regimens to deliver scientifically proven skin improvement.

A brand specializing in post-treatment care

We are a trusted derma-cosmetic brand for sensitive and problem skin care recognized by global dermatologists, and we work with over 2,000 global dermatology organizations.

Customized partnerships

Éclat du teint is working with a growing number of luxury spas. Each spa has its own characteristics and unique preferences, and our team of experts is ready to support them all. The company's long-term commitment to creating new spas and its involvement with spas undergoing change has prepared us to offer customized solutions and ensure a successful transition.
