

ABOUT NILONICA SHEA BUTTER

NILOTICA PREMIUM SHEA BUTTER FROM EAST AFRICA

NILOTICA Shea Butter is a premium and rare variety extracted from the fruit of shea trees found exclusively along the Nile River region in East Africa.

Unlike the commonly used West African Paradoxa shea butter, NILOTICA shea butter melts effortlessly at body temperature, offering a soft, creamy texture that absorbs quickly into the skin. Rich in omega-3, 6, and 9 fatty acids and powerful antioxidants like polyphenols, it delivers deep hydration and intense nourishment.

NILOTICA delivers Powerful Natural Hydration with premium shea butter born from the wilds of the African Nile.
