Web SaaS platform  
+ Mobile application  
manager/driver

## Your benefits :

### Business optimisation

- ✓ Efficiency: visibility on the variety of routes taken
- ✓ Responsiveness: automatic alerts in the event of delays or no-shows...
- ✓ Accuracy: identification of monitors
- ✓ Rigour: justification of training hours and courses taken

### Savings :

- ✓ Lower fuel and maintenance costs...
- ✓ Optimisation of vehicle management times thanks to automation (fines, maintenance, etc.)

### Usage control :

- ✓ Controlling the use of vehicles: limiting unauthorised use (evenings, weekends, etc.)
- ✓ Remote immobilisation in the event of unauthorised use

### Safety :

- ✓ Vehicle protection: real-time tracking, alerts in the event of theft alerts, remote immobilisation for easier recovery
