Rental equipment

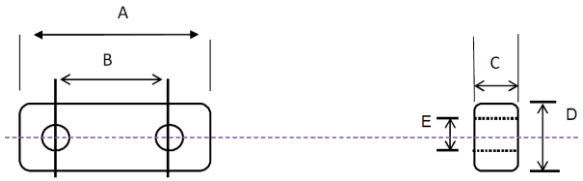

GMC Lifting Solutions

Manufacturer	Straightpoint Crosby SP
Type	Radio Link Plus
Serial number Load cell	56868 / 52024
Rated load	35 Ton
For use with shackles	35 Ton
Accuracy	+/- 1 % of applied load
Resolution	0.005 Ton / 10 Lbs
Units	Ton / Lbs
Safety factor	5 : 1
Operating / storage temp.	-10°C to +50°C / 0°C to +30°C
Protection	IP67
Output signal	Wireless
Data logging	Remote display
Battery type	4 x AA in loadcell – 2 x AA in display
Battery life	1200 hours loadcell – 40 hours display
Telemetry frequency	2.4Ghz
System range	Up to 500 meter
Data rate	2.4 Ghz (200Hz max)

35 Ton Radio controlled Loadcell

Rugged construction wireless loadcell ideal for lifting and weighing in offshore environments. Manufactured from high tensile, aerospace grade aluminum, anodized protection against corrosion. Load holes are beveled for minimum torsional effect. Antenna is internal for added protection. Comes with calibration certificate and transport case

Weight 9 kg
A: 393 mm
B: 225 mm
C: 75 mm
D: 126 mm
E: 60 mm ø
