Rental equipment

GMC Lifting Solutions

Serial number Load cell	116880
Serial number handset	130590
Rated load	500 Ton
Proof loaded to	750 Ton
For use with shackles	500 Ton
Non-linearity	< ± 0.25% of full scale
Non-repeatability	< ± 0.05% of full scale
Zero balance	< ± 0.05% of full scale
Environmental protection	IP67/IP68
Safety factor	5 : 1
Operating temperature	-25°C to +70°C
Storage temperature	-30°C to +80°C
Output signal	Wireless
Data logging	On load cell
Battery type	2 x AA
Active battery life	Up to 200 hours
Standby battery life	Up to 1400 hours
Telemetry frequency	2.4Ghz ISM
System range	Up to 250m
Sampling rate	10Hz (500Hz max)

500 Ton Radio controlled Loadcell

Rugged construction wireless loadcell ideal for lifting and weighing in offshore environments. Manufactured from high tensile, aerospace grade aluminium, anodised protection against corrosion. Load holes are bevelled for minimum torsional effect.
Antenna is internal for added protection.
Comes with calibration certificate

Weight 408 kg
A: 1150 mm
B: 636 mm
C: 237 mm
D: 188 mm
E: 318 mm
F: 514 mm
