

Water bags

Water bags are a unique and simple product specifically designed to provide a test load instead of traditional solid weights for all forms of load testing.

Safety

Water bags have a physically proven factor of safety in excess of 6:1 and are proof load tested to 2 x capacity.

Flexible

A wide range of Water bags is available. Bags can be hung in combinations to achieve large loads. Special low headroom bags are available where headroom is restricted. With bags weighing only some 2% of achievable load, floor-loading restrictions are rarely a problem. Bags are ideally suited to inaccessible lifting points. A variety of add-on options are available to meet specialist requirements such as extended drainage trunks, drain valves and manifold control systems.

CAPACITY		TRANSPORT SIZE	WEIGHT	FILLED SIZE	
Ton	kg	Empty and rolled – in meter	*kg	Height Meter	Diameter meter
1	1000	0.9×0.56×0.56	23	2.3	1.2
2	2000	1×0.6×0.6	45	3.5	1.6
2L	2000	1×0.6×0.6	40	2.1	1.9
3	3000	1.03×0.6×0.6	65	4.2	1.9
5	5000	1.07×0.7×0.7	100	4.6	2.0
5L	5000	1.07×0.7×0.7	95	2.5	2.7
10	10000	1.1×0.8×0.8	135	5.8	2.5
12L	12000	1.2×0.8×0.8	140	4.0	3.0
20	20000	1.1x1x1	230	5.8	3.5
35	35000	1.7×1.2×1.2	340	7.0	4.2
50	50000	2.0 x 1.4 x 1.4	600	9.9	4.4
110	1100000	1.8 x 1.8 x 1.8	1600	12.0	5.9
