

COM-316 ELEVATOR ENTRANCE

Built by elevator experts for elevator experts.

This entrance was developed by Belco Doors in 1980 for the commercial accessibility lift industry where car gates are not typically used. The COM-316 series assemblies are supplied with a fully concealed interlock and are compatible with virtually all lift manufacturers designs. These entrances offer a 1-1/2 or 3 hour elevator approved fire label.

FOR USE ON FREIGHT ELEVATORS,
VPL LIFTS, ACCESSIBILITY LIFTS & RESIDENTIAL
ELEVATORS.
