

What Customers Are Saying...

"I had just heard about SLIDE™ a few months ago so I decided to give it a try 3 weeks ago for my mare who was diagnosed with DSDL (degenerative suspensory ligament disease) which is incurable. She was extremely lame, could barely walk, struggled hard to get up and down and just overall was suffering greatly and was on an insane amount of pain medication twice daily. Now ever since I've had her on SLIDE™ she is walking around normally, is so much more comfortable and can get up and down with ease and is off her pain medication!! SLIDE™ is magic! It's incredible how fast it has such a huge impact on a horse's joints and ligaments especially seeing such a huge difference in my girl! I also have my other mare on SLIDE™ now and she has kissing spine - it has helped her immensely as well! Her back pain has improved so much I haven't needed to get her injected, which is incredible! I cannot recommend this product enough to everyone I know with horses!!!! Thank you so much to everyone at SLIDE™!"

- **Ember Jones (EJ Equine Therapy, Inc.)**

"I was in a bad car accident back in December 2024 and was hoping to avoid surgery and injections. Started taking SLIDE™ ha+ in May 2025 and so thrilled to be able to say that I am 100% better! No surgery or injections necessary! SLIDE™ ha+ accelerated my healing so fast! I have shared my experience with all my clients, family and friends. I now have my dog on it and all of my clients and their horses and dogs are on it. SLIDE™ ha+ really is unbelievable! Please keep making this product so that other people, dogs and horses can experience it!!!! - **Denise Leeper (equine and canine physiotherapist)**

"Our gelding had a horrible bout of laminitis. It went on for month, he saw different farriers that looked at him and a couple wrote him off, vets took x-rays and put him on medication, trims were done in coordination with those x-rays, but he still wasn't getting any better. A friend told me to try SLIDE™ ha+, and in coordination with finding a farrier that actually took the time to help him, he made a full recovery! We are SLIDE™ ha+ customers for life. This product is the real deal!" – **Danielle Rhodes**

“I’m in my 80’s and could only ride my horse for 45 minutes at the most as my hips and knees would get too sore to ride any longer. I started using the SLIDE™ human, taking the 4 capsules twice a day. The results have been nothing short of miraculous! I can now ride for over 2 hours with NO PAIN!” - **Brian Mitchell**

“I’m a ‘proof and science’ equine therapist...I don’t believe in hype - I have to see the proof and results for myself before I recommend anything. Through a vet I work closely with providing me with the science and product information - I have guided a lot of clients to SLIDE™ - and the results are consistently phenomenal! As a thermographer I can literally “see” the difference, but regardless, the rider feels the difference and so does the horse!” - **Lisa Baker**

“Enclosed is a check for 8 human bottles of SLIDE™. Please send ASAP! We have several others wanting to use it. We love the results we are getting! Four of us in our household are using it. Our 20 year old had hip problems and his pain is completely gone and he can run and jump like normal again!!! Thank you for such a great product!

- **Amos and Katie Schwartz (Amish community, Bonaparte, Iowa)**

“I have osteoarthritis in my hands, mostly the first two knuckles. Before using SLIDE™ my knuckles were sore, painful and disfigured. By the end of the first month of use there was a noticeable improvement! The pain had greatly diminished and my swollen knuckles kept shrinking. I have been using SLIDE™ for 8 months now and the pain is completely gone, as well as all the swelling in my knuckles. This is a great joint supplement that really does work!” - **Brian Ahtila**

“My 15 year old mare has always had a shoulder injury, I tried many, many different joint supplements over the years. None of them helped her. Started her on SLIDE™ ha+ around 3 months ago and she now canters and bucks in the pasture! Previously there were some days she didn’t even want to go out. What an incredible difference SLIDE™ ha+ has made! - **Christine Carter**

“My 18 year old barrel racing mare has been clocking way faster since putting her on SLIDE™!” – **Brannagh Douglas**

“I LOVE this product! We have ALL our racehorses on SLIDE™ and are blown away by the results!” - **Rachel Issacs**

“This is AMAZING stuff! I love that I can get results without relying on the vet. It’s been 3 months now since ANY of my horses received joint injections and they are doing better than ever! I tell everyone about SLIDE™! Thanks for a great joint supplement that really works!” - **Christine Harris**

“I just want you to know that ALL of my show horses and my clients show horses are on your SLIDE® supplement and it really has helped a lot of them! I also have all of my older and my clients senior horses on it and we see a huge difference! - **Lisa Stroway**

“SLIDE™ is an excellent supplement! My mare fully recovered from her lameness due to her spine” - **Sharon W**

“I switched to SLIDE™ at the end of the season...I’d hit a bit of a slump. So I turned out of some rodeos. I went and made sure A Frenchmans Ledoux (my barrel racing stallion) was looked over by the vet to cover all the bases, then decided I had nothing to lose if I added SLIDE™ to his diet. He was on the supplement about 2 weeks before we headed to the last 6 rodeos that I was going to run him in and I needed him to place at a couple in order to secure my spot in the circuit finals. Our changes to his program must have worked! He placed in 4 of those 6 rodeos and was flying home at the last one! Call it vet work or call it SLIDE™ or call it both...all I know is I will be keeping him on the product and putting some other horses on it!” – **Taylor Jane**

“I started using SLIDE™ last winter and noticed a SIGNIFICANT change in my 22 year old gelding that I brought out of retirement to run barrels. I have since put all my horses on SLIDE™. I even purchased some for myself. After a slight debacle from the shipping agency, SLIDE™ not only refunded my money, but they sent me a free bottle to try! I tried it and noticed a big difference in my own movement. I have MS and the difference was HUGE for me. So now we all take it! It’s a great product and they have great customer service!” - **Karla Waltze**

“Our gelding has seen marked improvement with overall muscle and joint soreness after being on this for just one month. My husband has been on the SLIDE human capsules for 2 months now and is so happy - his knees, hips and back feel so much better!” – **Sarah Lee**

“SLIDE™ has transformed my horse’s life. We have a 17-year-old reining horse and prioritize longevity, and incorporating SLIDE™ into our program has been a game changer for Benji! Thank you!” - **Nicole Millican**

“I started using SLIDE™ on my horses and literally noticed a difference in A WEEK!”

- **Brooke Sisson**

“My 2 year old filly arrived home from the race track sound. Took a rip across her pen after about a week and slipped in the mud from our first real rain this year. After several days we took her to vet clinic as she was moving like she had stringhalt in left hind. After x-rays turned up nothing they determined she had hurt her sacrum, pulled a muscle. Did shock wave therapy and returned one week later for more with very little improvement. After 2nd session I learned about SLIDE™. Started feeding it and within a few days saw improvement and on the next trip to vet they decided she was doing so much better that we would discontinue the shock wave. I have continued her on SLIDE™ and am hoping she is on her way. No visible issues now!” – **Maxine A**

“We received a new horse off the track that was in a lot of discomfort from being at the track full time and racing every two weeks. He is about to finish his 2nd container of SLIDE™ and he's in a lot less pain. He is happier and performing well against a much tougher class of competition. Although his races are now spread further apart, he hasn't missed the board since being on SLIDE™. The only reason for 4 stars is the price. It's a bit high for our client's budget, but so far it has been worth it!” - **Barb G**

“I've been using this on my two geriatric horses (25 and 26 yrs old). They started showing intermittent lameness issues in their late teens/early 20's. Started them both on SLIDE™ a year ago. NO MORE LAMENESS ISSUES! Additionally, and I know the following benefit was not a marketing of this product, but my 26 year old horse started putting on weight. He had gotten that bony, old man look and I'd say SLIDE™ turned his body back 7-8 years! This is legit stuff. Going to try the dog supplement next”

- **Sara A**

“Of all the joint stuff out there, SLIDE™ works the best on our horses!” – **Nichole**

“SLIDE™ ha+ has been an incredible product for our Nickster - keeping her feeling great, moving smoothly, and performing at her best. It's been a game-changer in her routine!” - **Nicole F**

“Hey my fellow equine friends! If you have any horses PERIOD you need this product in your barn. If you already know what this is then I'm happy to share that Cowboy Creek tack store now has it in stock! For those who don't know what this is, SLIDE™ is an

advanced joint lubrication for all equine athletes but doesn't necessarily need to be performing to deserve this amazing product. Just like in humans, horses produce less hyaluronic acid as they age or endure heavy physical demands. This decline can lead to joint stiffness, reduced flexibility, and increased risk of wear and injury - especially in competitive or aging horses. SLIDE™ ha+ Equine delivers a powerful daily dose of 5,000 mg of high molecular weight hyaluronic acid - plus additional joint-supporting compounds - to help maintain optimal joint lubrication, protect cartilage, and support long-term soundness. It's serious joint care for serious equine athletes. I have personally seen HUGE improvements in my own horses in just two weeks! I'm extremely excited to see my older horses moving and feeling so much better! And so thankful that our local tack store is now carrying this product!" - **Kira Podgurny**

"I have found that all my horses have done great on SLIDE™, but my proof is my 30+ year old cutting horse - he's running around like a 5 yr old! No stiffness, lameness, nothing! Still chasing after other horses. He's been retired for years but all his joints are in great shape now!" - **Gail Lea Roy**

"My mare is 18 and her joints creaked. She could barely lift her back hooves to get her riding boots on. I started her on SLIDE™'s recommended dose for pleasure horses. 1/2 scoop twice daily. Less than a week later I asked her to lift her hind hoof to put her boot on to ride and her back hoof popped up about 12" so fast it was almost like I'd shocked her. She usually left the toe of her hoof on the ground while I unfastened the boot. Yesterday every hoof popped up and she held it while I unfastened the boot. Add to all this she moves so much better!" - **Faye**

"Both of my horses seem to like product and eat all of it when fed with grain. My vet told me to put my two year old on SLIDE™ as a preventative to future problems"
- **Warren**

"The SLIDE™ canine product has been UNBELIEVABLE for my older girls. All are active but 2 had a slight limp. I noticed the running and jumping had slowed down a bit. I put all 3 girls on the canine formula and the transformation has been amazing! The two older girls are unstoppable!!! Limp is gone and the visits back on the bed are now a daily activity again. I cannot say enough good things about the SLIDE™ canine formula!!!" - **Kristine**

“This product has changed my life! In less than 24 hours, my arthritis pain was significantly reduced and I can find some comfort in my joints again without any side effects. This product is priceless! Thank you so much” - **Symphonie Nadeau**

“We have been using SLIDE™ for 6 months now after I saw the beautiful layout for the product in Western Horseman magazine. The dog, horse, and us humans have all been taking it. Unfortunately, our dog and horse are very old - would have loved to start a SLIDE™ regime for them sooner - dog is 14 yrs and the horse is 27, so it's hard to quantify their results, but my skin is now glowing, and my hair is thicker and shinier, and my joints feel great! I will never be without SLIDE™. As long as you sell it, we will be purchasing! - **Christine**

“I've been taking SLIDE™ for the past 4 months and I've noticed a big decrease in discomfort in my joints. I have issues with my knees, hips and cervical spine and there's no doubt that SLIDE™ is helping me live a more active life with far less pain. Thank you!” - **Valerie Woods**

“I've been using the SLIDE™ human capsules for just over a month and I can already feel a real difference. Mornings used to be the worst—knees were stiff, back aching—but now I'm moving around with way more ease. It's not an overnight fix, but it's definitely helping! I feel more limber and even my workouts have improved. I highly recommend this product if you're starting to feel the wear and tear of age” – **Tony**

“I'm writing to let you know that my husband has been using your SLIDE™ ha+ capsules for almost 2 months now. I reordered because my husband is almost out and he can't run out! He has been able to not be in his wheelchair and is walking again and able to dress himself. Also, he no longer needs to take his prednisone, he just takes SLIDE™! I order 3 bottles every month as I have other people using it that I give it to. I've also recommended it to others here in British Columbia, Canada. Thank you for an excellent product!” – **Trudy Cote**

“My SLIDE™ human capsules are making a big difference in my mobility. I have to drive 150 miles for physical therapy and sometimes can't even walk when I try to get out of the car when I get there. I started my dosages on the 23rd of April and had my next physical therapy appointment the next day on the 24th and to my surprise I jumped right out of my car and was walking before I realized I wasn't in as much pain as usual! SLIDE™ worked so fast for me! I also have the beginnings of rheumatoid

arthritis in my right middle and index fingers and that appears to have decreased and is less painful. Thank you most sincerely!" - **Robin**

"I'm 77 and have used various joint supplements over the years, including Osteobiflex and Move Free. Some worked a little but most didn't provide much in the way of results for me. Then I tried SLIDE™ and what a difference this product has been! Amazing results! I have NO PAIN in my knees or fingers anymore. This product lives up to its hype!" - **Martin G**

"SLIDE™ is without a doubt the best joint supplement ever developed. I've used a lot of different joint supplements over the last two decades and none have worked anywhere near as good as SLIDE™ does. If you want a joint supplement that really works then this is the product to use!" - **Stuart Simon**

"I have suffered from pain in my cervical spine for years and have tried many different products trying to alleviate the pain in my neck. Nothing has ever worked for me. A friend recommended SLIDE™ as she was using it on her arthritic hands with great success. In ONE WEEK my neck pain was completely gone and it's never come back! I highly recommend this product if you have neck pain. It really does work!" - **Kim S**

"This is without a doubt the best joint supplement in the world! Took away all my joint pain in the first week. Makes total sense to get your HA levels back up to what they once were" - **Anne M**

"I have used SLIDE™ personally and feel A BIG DIFFERENCE in my joints. I also have both of my performance horses on it. Love the product!" – **Cheryl**

"I started using the human SLIDE™ a few months ago and noticed a significant improvement in overall joint pain and mobility. I ran out for a couple weeks and I really noticed as the pain and stiffness came back. I was so happy to get my order and get back on the product. My joints are happy again!" – **Erin**

"SLIDE™ has literally changed our lives. My husband and I are in our 60's and we were both experiencing knee pain. Within 3 days of taking SLIDE™ we noticed that the pain was completely gone for both of us! We have recommended SLIDE™ to all our friends!" - **Barbara K**
