

# Source Code Review

---

SCOPE DEFINITION FORM

# Confidentiality

## 1. Brief description of the business application and its connectivity

## 2. Architecture of the application

a. Standalone

b. Client-Server

c. Web application

## 3. Source code details

a. Approx line of code

b. Is the application tiered and if so how many tiers it consists of?

c. What is the number of files to be reviewed?

d. Is there are third-party code called by the application classes/ method/functions?

## 4. Operational platform of the server

Windows

Linux

BSD

Solaris

HP-UX

AIX

IRIX

Other (specify)

# Confidentiality

## 5. Operational platform of the client

Windows

Linux

Other (specify)

## 6. Operational Architecture

i386

SPARC

RISC

IA-64

MIPS

Other (specify)

## 7. Programming Platform

### a. Client-server / Standalone

Java

Dot Net

C/C++

Visual Basic

Other

### b. Web Application

Java

Dot Net

ASP/JSP/PHP

Perl

## 8. Does the application use an application server?

Yes (specify)

No

# Confidentiality

9. Are there any known issues in the application? If yes please specify.

## 10. Operational Architecture

Authentication	
Authorization	
Accounting	
Encryption	
Mobile App	

## 11. Testing Environment

Production	
Test bed	

12. No. of users	
------------------	--

## 13. Does the application have mobile app?

Android	
IOS	
Windows	

# About Infopercept

Infopercept's vision and core values revolve around making organizations more secure through the core values of Honesty, Transparency and Knowledge, so as to enable them to make better informed decisions about their security practices & goals. With our synergistic vision to combine technical expertise and professional experience, we aim to further establish our place as a one stop shop for our clients and partners' cybersecurity and accreditation needs.

Our specialized core team comprises experienced veterans, technical experts & security enthusiasts having good practical experience & thorough knowledge in the Cybersecurity domain, latest trends, and security innovations; ensuring that you always get the best security approach & solution for your specific business needs exactly the way you want it to be.
