Alex Takács

Senior/Lead Product Designer – Design System & Enterprise UX/UI

📍 Remote ✈ alextakacs10@gmail.com 🌐 atakacs.com in alextakacs10

About

Product Designer with 8+ years of experience in scalable product teams. Most recently rebuilt a design system supporting 40+ designers and hundreds of developers, with a focus on accessibility, governance, and design ops. Skilled at bridging design and engineering to deliver faster, higher-quality outcomes.

💼 Work experience

2022 - Now **Instructure** Senior Product Designer

- Architected a multi-layered token system ensuring WCAG compliance
- Co-led the full rebuild of InstUI components, implementing Auto Layout, Variants, and dynamic styling for scalability
- Introduced AI-assisted component exploration, accelerating research and uncovering cross-platform design patterns
- Established design ops governance and a contribution model
- Designed and shipped accessible captioning and editing tools used by thousands of educators globally

2018 - 2022 **Vodafone** Senior/Lead Product Designer

- Directed a hybrid design team during a digital transformation project
- Designed complex flows including eSIM management, and KYC journeys

2017 - 2018 **Codecool** Junior Full-Stack Developer

- Full-time bootcamp simulating real-world software development environments, using agile methodologies, retros, demos, and sprints
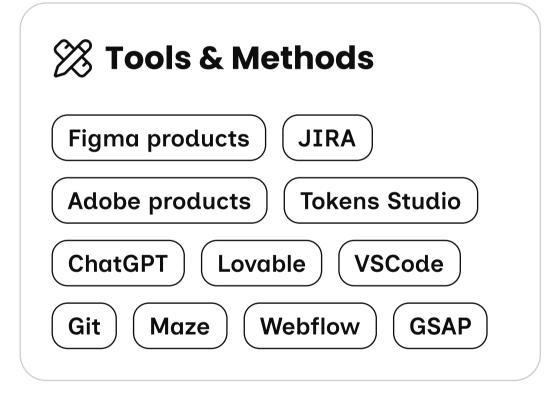

### 2016 - 2018 **Andrássy Restaurants** Graphic Designer

- Designed branding, menus, promotional materials across six venues

2014 - 2016 **Konzolvilág** Web Content Manager

- Designed product pages, launch assets, and nationwide print magazine for Hungary's leading video game retailer
