# LAYOUT ARMCHAIR

261 | 262 | 263 | 264

## HIGHLIGHTS

- Part of a cohesive seating collection offering versatility across various settings and configurations
- Distinctive backrest opening adds comfort and visual lightness
- The shell and seat are crafted from a minimum of 96% post-consumer recycled plastic and offered in a variety of colours
- With circularity in mind, all components can be fully disassembled, featuring removable upholstery and replaceable parts
- Available with plastic shell and seat (261), with plywood seat (262), upholstered seat (263) or fully upholstered shell (264) in a large selection of fabrics and olive-leaf tanned leather
- Features a 4-legged arc base with wheels available in polished or black powder-coated aluminium
- Other base options include 4-leg steel base, 4-star swivel base, 5-star swivel base, solid wood legs, and arc base
- Suitable for a wide variety of private and public environments

# LAYOUT ARMCHAIR 261 | 262 | 263 | 264 DESIGN BY JULIEN RENAULT

Designed by Julien Renault, the Layout Armchair 261- 264 variants offer a flexible and innovative design shaped by a commitment to comfort, functionality, and circularity. Characterised by the opening in the backrest, this defining feature provides greater comfort while giving its appearance a sense of lightness and transparency. The aluminium swivel four-star arc base with castors balances elegant aesthetics and ease of movement, with all chair components designed to be fully disassembled to extend its lifespan and enable refurbishment for long-term use. The shell is crafted from a minimum of 96% post-consumer recycled plastic and offered in a variety of colours, which can be combined with different seat options or a fully upholstered seat for added comfort, making Layout a versatile and durable seating solution ideal for offices, restaurants, public institutions, and domestic environments.

French designer Julien Renault blends rational methods with artistic freedom in his approach to design. Based in Brussels, he draws inspiration from everyday life, transforming the ordinary into something beautiful. His work for numerous international brands reflects the deep connection between objects and their environments. For HAY, Julien has designed the Pastis Table and Chair series, Compass Lamp Collection, and Layout Chair.

## MATERIALS

### ARMSHELL

Injection moulded solid-coloured polypropylene shell with armrest. Made from at least 96% post-consumer recycled PP. Available as full upholstery with cut foam

### SEAT

Made from at least 96% post-consumer recycled polypropylene, water-based lacquered plywood, or upholstery with moulded foam

### BASE

Powder coated or high polished 4-star swivel base in cast aluminium with soft wheels suitable for all floors

### FABRIC & LEATHER UPHOLSTERY

Please see our Fabric Overview for approved standard fabrics.

[LINK TO OVERVIEW](#)

The upholstery can be replaced to extend the product's life. HAY recommends consulting a professional. For more information, contact your HAY sales representative.

ANSI BIFMA X5.1  
Office chairs.  
IN PROGRESS

## SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
