ABOUT THE SPACE

BUILT BELOW. DESIGNED WITH INTENT.

The Basement sits beneath the historic Woolworth's Building in downtown Bakersfield. Getting here requires coming through a National Register landmark, past a working 1950s lunch counter, and down a monumental staircase. The path into the space is part of the one of a kind experience.

The Basement was built as a completely new use within an existing historic structure. The design reflects that honesty: exposed concrete, fluted tile in a dusty red, dark walls that absorb sound and keep focus on the stage. Industrial in character. Refined in execution. The space is flexible enough to handle a corporate dinner or a high-capacity concert without losing its identity.

HOSPITALITY APPROACH

HOSPITALITY, DONE INTENTIONALLY

Events at The Basement are produced with the same care that defines the Woolworth's Building. Thoughtful service. Quality ingredients. An environment where guests feel engaged from the moment they arrive.

Whether hosting a formal seated dinner or a capacity-level concert, our team focuses on execution, flow, and experience from the first inquiry to the last guest out the door. We don't treat catering as a checkbox. It's part of what makes the event work.
