ABOUT STRAIKER LABS

Straiker Labs is the research arm of Straiker, The Agentic Security Company. We build the simulation and evaluation infrastructure that turns cyber defense research into repeatable experiments, and we partner with frontier AI labs to measure and improve how their models behave in security-critical settings.

ABOUT THE ROLE

You will build the simulation and evaluation infrastructure that researchers and security engineers run their work on. That means turning operational scenarios into repeatable environments where agents can act and researchers can verify what happened. Success looks like a researcher running a demanding experiment, inspecting the result, and trusting it.

WHAT YOU'LL DO

- Build resettable cyber environments. Design isolated, concurrent execution on Kubernetes that resets cleanly between runs.
- Connect actions to outcomes. Build the state capture, telemetry, and verifiers that tie what an agent did to a security or operational result.
- Ship the researcher-facing stack. Develop the APIs, data pipelines, and interfaces used to run and reproduce experiments.
- Own reliability end to end. Take responsibility for performance and debugging across both the infrastructure and application layers.

WHAT WE'RE LOOKING FOR

- Deep production systems experience and hands-on Kubernetes expertise, including debugging well beyond application deployment.
- Strong Python and comfort working across a modern web stack.
- Five or more years of relevant engineering experience, or equivalent evidence of exceptional systems work.
- Clear technical judgment, strong ownership, and genuine interest in cybersecurity.
- Kernel or networking experience. Strongly preferred, not required.

WHO THRIVES HERE

You should enjoy moving between low-level systems behavior and the tools that make those systems usable. The people who do well here care as much about whether a result can be reproduced as about whether the code runs.

APPLY

recruiting@straiker.ai · Attach a CV and a short note on your relevant work.

BENEFITS

Health & family

Medical, dental, and vision for you and your dependents, plus 401(k).

Time & ownership

Meaningful early equity with a 10-year exercise window. Unlimited PTO with a 15-day floor we enforce.

Craft

Conference and hardware budget. Home-office stipend. Time to go deep on the systems problems that matter.

Straiker Inc. is an equal opportunity employer. We consider all qualified applicants without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, disability, veteran status, or any other characteristic protected by law. We provide reasonable accommodation to applicants with disabilities at any stage of the hiring process. Contact recruiting@straiker.ai to request accommodation. Straiker participates in E-Verify where required.
