Technology, Intelligence & Federal Civilian

ABOUT THIS STOP

San Diego is home to one of the most concentrated clusters of defense technology, intelligence community contractors, and naval acquisition professionals in the country. From the Naval Base complex to the deep network of defense primes and tech firms along the I-15 corridor, the San Diego GovCon community is elite, clearance-heavy, and deeply mission-focused.

WHY SAN DIEGO?

Few markets offer the concentration of cleared professionals, senior defense buyers, and technology innovators that San Diego does. If your company works in defense technology, intelligence, cybersecurity, or naval systems — or wants to — this room will have more of the right people per square foot than almost any event you will attend all year.
