Empowering a Healthcare
Technology Leader with
Cloud Financial Excellence

The Challenge

Optimizing a Cloud Ecosystem for Growth and Efficiency

Client Snapshot

Healthcare
Technology
Industry

\$100M+
Company size in
Revenue

~\$240K/month
Baseline AWS spend

A leading healthcare technology company sought to move ad-hoc savings efforts to a comprehensive, high-efficiency FinOps program, to minimize financial risk and maximize cloud investment.

Financial impact & the outcomes

Total AWS Net Savings per month

Baseline savings VS after 3 months of FinOps optimization

The Approach: Strategic Finops

Inform

Baseline: Established a Cloud Ecosystem for Growth and Efficiency

Optimize

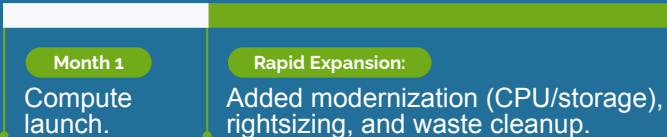

- CPU/storage upgrades
- Eliminate all unused resources

Operate

Sustained Governance Ongoing reporting packages via sustained operational rhythm.

The Approach:

Key Outcomes

~\$50K/mo
Month 1 Net Savings

~\$57K/mo
Month 3 Database Savings

~\$127K
Optimizable Compute Commitments
