

## **BIG DOG BUILDERS – APRIL NEWSLETTER**

*Spring Edition: Build It Right*

Spring's back. Longer days, better weather—and a clear look at everything your house needs.

At Big Dog, we don't patch problems. We replace, rebuild, and upgrade. If it's time to fix it, it's time to do it right.

### **What We're Building This Spring:**

#### **Roof Replacements**

Winter took its shot. If your roof is worn out, don't wait for the next leak. Full replacements, built to handle what's next.

#### **Residing / Exterior Upgrades**

New siding changes everything—look, protection, and value. Clean lines. Strong materials. No shortcuts.

#### **Full Remodels**

Kitchens, bathrooms, interiors—outdated to dialed-in. We don't refresh spaces, we rebuild them.

#### **New Construction**

From the ground up. Solid planning, clean execution, built to last.

---

#### **What We Don't Do:**

Repairs. Landscaping. Temporary fixes.

#### **What We Do:**

Roofing. Residing. Remodeling. New builds.  
All in. Done right.

---

#### **Spring Schedule Fills Fast**

Once the weather stabilizes, projects move quick and calendars lock up. If you're thinking about a major upgrade, now's the time to get on the books.

#### **Big Dog Builders**

No shortcuts. No nonsense. Just solid work.

---

Reach out to start your project.
