

Solution Brief:

A Strategic Alliance Enabling Scalable, Compliant Lab Informatics

Introduction

Since 2014, Sapio Sciences, a leader in science-aware™ lab informatics, has partnered with LEAP Consulting Group to deliver rapid, compliant, and scalable lab digitalization. This strategic partnership brings together Sapio's unified platform and LEAP's domain-focused implementation services to empower life sciences organizations worldwide.

This partnership empowers clients to modernize lab operations with speed, scale, and confidence, transforming R&D and QC labs into future-ready environments.

About Sapio Sciences: The Science-Aware™ Lab Informatics Platform

Company Profile: Sapio Sciences

Sapio Sciences, founded in 2004, is a leading laboratory informatics provider delivering a unified platform that simplifies complexity, unifies systems, and transforms how science is done. The **Sapio Platform** combines Laboratory Information Management System (**LIMS**), Electronic Lab Notebook (**ELN**), and **Scientific Data Cloud** capabilities into a single, AI-native system purpose-built for scientific workflows.

Key Strengths & Industry Focus

With operations across North America, Europe and APAC, Sapio helps organizations streamline workflows, ensure compliance, and accelerate R&D and manufacturing insights.

- ✓ Unified LIMS, ELN, LES, and SDMS in one platform
- ✓ No-code/low-code configuration with AI-ready workflows
- ✓ Built-in compliance with GxP, HIPAA, ISO 17025, 21 CFR Part 11
- ✓ Scalable for global deployments in pharma, biotech, CDMOs, and diagnostics
- ✓ Scientific Data Cloud with integration capabilities and role-based access

Why This Partnership Matters

Sapio Sciences brings the innovation backbone that powers lab digitalization at scale. With its unified, no-code platform that integrates LIMS, ELN, LES, and SDMS, Sapio enables smarter science, streamlined compliance, and actionable insights across the lab ecosystem. Sapio brings:

- ✓ A configurable, cloud-native platform purpose-built for scientific workflows
- ✓ Built-in compliance with GxP, HIPAA, ISO 17025, and 21 CFR Part 11
- ✓ End-to-end informatics capabilities across R&D, QC, diagnostics, and manufacturing
- ✓ AI-ready architecture that supports automation, search, and data modeling

Meet LEAP

LEAP Consulting Group is a digital transformation partner for life sciences organizations, with expertise across lab systems, cloud strategy, and scientific operations. Founded in 2010 and headquartered in New Jersey, LEAP supports implementations across North America and the EU, with deep compliance experience in CLIA, CAP, FDA, and GxP-regulated environments.

With a team of over 50 professionals and a presence in North America and Europe, LEAP ensures that each Sapio implementation is expertly configured, fully validated, and aligned with regulatory and scientific requirements.

This partnership allows clients to leverage Sapio's platform power and LEAP's delivery excellence to accelerate lab modernization initiatives with confidence.

LEAP specializes in:

Change management
& systems integration

LIMS, ELN, and
bioinformatics
implementation

Cloud migration and
ERP integration

Pharma RWD, analytics,
and digital strategy

The Solution: Unified Platform, Expert Implementation

Together, LEAP and Sapio deliver enterprise-grade digital transformation to diagnostics, clinical, and research labs. Key elements of the partnership include:

- ✓ **Collaborative solution design and agile implementation**
- ✓ **LIMS/ELN configuration tailored to regulated workflows**
- ✓ **Integration with cloud and ERP platforms (AWS, Azure, Oracle, NetSuite)**
- ✓ **Automated reporting and revenue cycle management (RCM)**
- ✓ **GMP-aligned sample tracking and process optimization**

Real-World Customer Benefits

- **Faster Onboarding:** Sapio's low-code tools combined with LEAP's agile delivery accelerate go-live
- **Compliance Confidence:** Validated implementation aligned with global frameworks
- **Unified Operations:** A single platform for LIMS, ELN, and SDMS, configured to lab-specific workflows
- **Global Readiness:** Designed for multinational deployment with localized support
- **Continuous Innovation:** Scalable systems that evolve with scientific and business needs

Frequently Asked Questions

Why do organizations choose Sapio and LEAP together?

For a future-ready lab informatics solution backed by a powerful platform and a proven delivery partner.

What distinguishes Sapio's platform?

Its unified architecture, no-code configurability, and deep scientific workflow support.

How does LEAP add value to Sapio deployments?

Through deep domain experience, compliance validation, and expert integration.

What kinds of labs benefit most?

Regulated labs across biotech, diagnostics, and clinical R&D seeking scalable transformation.

When adopting transformative technology, the right expertise makes all the difference.

With LEAP, you don't just get it right—you Get There Faster.
Let us guide your laboratory through a seamless, confident transition.
