

TAKEUCHI

TB260

Midi excavator with cabin

The Takeuchi **TB260** midi-excavator has an extremely compact design and convinces with its low overhang and a rear swing radius of only 1300 mm even on narrow construction sites. Our 6-tonner has a hydraulic flow of over 100 l on the first control circuit - so even demanding attachments, such as mulchers or rootstock cutters, can be operated optimally.

- » 1st hydraulic circuit, with proportional control with 102,2 l/min
- » 6 LED worklights for optimum illumination of working area
- » Refuelling pump

For three hours, two days or a whole year - if you need it for your construction site, you can **buy and rent** your TB260 from us.
