TB320

Mini excavator with canopy or cabin

The **TB320** is an incredibly powerful 2-tonne mini excavator with a large lifting capacity. You can use a variety of attachments on the TB320 as it is equipped with best-in-class hydraulic flow of 40 l/min on the 1st hydraulic circuit. With the Undercarriage retracted, it's manoeuvrable in the tightest of city alleys or when doing renovation work inside buildings. For maximum stability, you can easily extend the undercarriage hydraulically.

- » 1st hydraulic circuit, with proportional control with 40 l/min
- » 4 hydraulic circuits, 3 of which have proportional control
- » Hydraulic track width adjustment - for more stability
- » Lifting cylinder is designed as a neck cylinder and offers optimum protection even during demolition work
- » Available in 2 versions: with canopy or with comfort cabin

For three hours, two days or a whole year - if you need it for your construction site, you can **rent and buy** your TB320 from us.
