Incoming Wiring Instruction

To receive a wire transfer into your None Suffer Lack Federal Credit Union account, please provide the sender with the complete wiring instructions below. Missing or incomplete information may delay your transfer.

Step 1 — Give the Sender the Correct Routing Path

All incoming wires must first go through our corporate credit union:

Vizo Financial Corporate Credit Union 1201 Fulling Mill Rd, Suite 200 Middletown, PA 17057 **ABA Routing Number: 231387550 Account Number: 550803761000**

Step 2 — Ensure the Sender Includes Your Credit Union

The sender must list:

For Credit To: None Suffer Lack FCU

Step 3 — Provide Your Personal Account Information

This is the most important part. The sender must include:

- **Your full name (as it appears on your NSLFCU account)**
- **Your NSLFCU account number**

This ensures the funds are posted to the correct member account.

Step 4 — Be Aware of Incoming Wire Fees

All incoming wires are subject to a fee. Please review the current **Rate and Fee Schedule** for the exact amount.

Step 5 — Timing

Domestic wires typically post the same business day once received. Delays may occur if information is incomplete or if the wire arrives after 4:00pm EST.
