

TLC Midweek Classes: Spring 2026

Advanced Bible and Theology - Church History

Step into the rich story of the Christian faith as we trace God's work through the centuries—from the early church to today. This class offers an accessible and engaging overview of key people, movements, and moments that have shaped what we believe and how we live it out. Whether you're new to church history or looking to deepen your understanding, you'll gain valuable perspective and encouragement for your faith today.

Choir Class

If you enjoy singing or have ever wanted to be part of a choir, this is your invitation. This is not a lecture-style class, but a hands-on experience where we come together to sing, learn, and grow in worship. All skill levels are welcome as we build community and lift our voices in praise each week.

Find your Fit

"God has given each of you a gift from his great variety of spiritual gifts. Use them well to serve one another" - 1 Peter 4:10. God has blessed each of us with specific gifts to serve the church, but so many of us aren't sure what that is. In these 4 sessions we hope to help you explore and discover how God has wired you for service to the body.

Heaven

What does the Bible really say about heaven? This class explores the promises of eternity, the nature of the new creation, and the hope that shapes how we live today. With thoughtful teaching and open discussion, you'll gain a clearer and more compelling vision of the future God has prepared for His people.

Parenting Skills Workshop: Beyond Misbehavior

Join us for a 4-week parenting class led by Colleen Murphy (local parent educator and coach with 25+ years of experience) as we explore the why's behind what we consider misbehavior. Does your child demand attention nonstop, or tell you, "*you're not the boss of me*" or tell you "*you're mean*" and they're going to grandma's house or tell you they "*can't clean up all the toys!*" After we understand the *why*, then we can learn tools on *how* to effectively respond to get better results. Parenting is hard work. Let's come together, learn some things, get new tools and not feel so alone.
