Operating within a Catholic ethos based on Gospel values, Emmanuel College believes that all students can learn when given a safe and caring environment, as expressed through its Marianist tradition. This Marianist culture seeks to produce students capable of having a positive impact on the world and never loses sight of catering for whole student development, for which its teaching community is collectively responsible.

All College staff must remain familiar with Emmanuel's [Child Safety Code of Conduct](#), which recognises the critical role that school staff play in protecting the students in their care and establishes clear expectations of College employees, volunteers, contractors and clergy for appropriate behaviour with children, in order to safeguard them against abuse and or neglect. [CECV Commitment Statement to Child Safety](#)

All College staff have a role in respecting and furthering the mission of the Church. It is expected of all employed in a Catholic school that they:

- Accept the Catholic educational philosophy of the school;
- Develop and maintain an informed understanding of those aspects of Catholic teaching that touch upon their subject areas and other aspects of their work;
- Strive to help students to understand, and appreciate Catholic teaching and values through their own teaching and other work, and by personal example;
- Avoid, whether by word, action or public lifestyle, influence upon students that is contrary to the teaching and values of the Church community, in whose name they act;
- Comply with the accreditation policy of the CECV to teach in a Catholic school.

At Emmanuel College, all staff are part of a collaborative culture, whereby individual and collective responsibility is taken for the growth of the whole student. Demonstrating a commitment to continual improvement by modelling the behaviour of lifelong learners, Emmanuel staff provide contemporary learning and teaching that is student-centred, and evidence based. School staff will prepare students for a global and rapidly changing world by inspiring a desire to learn and improving their capacity to think critically, while developing and employing twenty-first-century skills, all of which are important dimensions of this school climate.

Given that Emmanuel is one college across two campuses, there is strong interaction between each of the campus teams. A teacher is based at a given campus; however, is expected to work across the whole college at times to work collaboratively with peers. This includes travel from one campus to the other for relevant collaboration and planning.

## Responsibilities

A Teacher at Emmanuel College:

- Is professional, prepared and committed to the delivery of contemporary evidence-based pedagogy;
