# Agri & BioWaste Conclave

Global Circular Economy & Trade Integration

Reimagining Waste, Reshaping Markets,  
Reinventing Sustainability

Fri-Sat, 13-14 March, 2026 The Leela Ambience Gurugram

# 01.

## The future belongs to those who can turn waste into wealth.

Agricultural and bio-waste are no longer problems—they are billion-dollar opportunities. Governments are enforcing strict sustainability mandates. Investors are funneling capital into bio-based solutions. Businesses are racing to integrate circular economy strategies. Are you keeping up?

The Agri & BioWaste Circular Economy Conclave 2025 is where industry leaders, policymakers, and disruptors converge to turn waste into a high-value resource. From waste-to-energy breakthroughs to biodegradable innovations, this is where the next sustainability revolutions are forged.

### Why Zero Waste?

The ultimate platform for business, policy, and sustainable transformation.

- It's where deals get made
- It's where global policies are shaped
- It's where your next big business opportunity awaits

Do you want to lead the future—or be left behind?

02.

## Why You Can't Miss This Event

### ✓ Unrivaled Market Intelligence

Be the first to decode global policy shifts, upcoming regulations, and trillion-dollar sustainability trends

### ✓ Business & Investment Opportunities

Meet the VCs, private equity firms, and corporate investors betting big on waste-to-value

### ✓ Next-Gen Circular Economy Tech

Witness live demonstrations of AI-powered waste management, bio-based materials, and zero-waste innova-

### ✓ High-Value Networking

Connect with decision-makers from agribusiness giants, FMCG leaders, cleantech startups, and top-tier sustainability executives

### ✓ Government & Corporate Powerhouses

Hear directly from policymakers driving regulatory change and corporate leaders implementing circularity at scale.

### ✓ Future-Proof Your Business

Position your company at the forefront of the fastest-growing and most profitable sustainability sector.

03.

# Who Should Attend?

This event is not for everyone. It’s for leaders and pioneers who are serious about driving the future of the circular economy:

**Government Officials:**

Policymakers from agriculture, environment, and industry ministries driving circular economy initiatives

**Industry Leaders:**

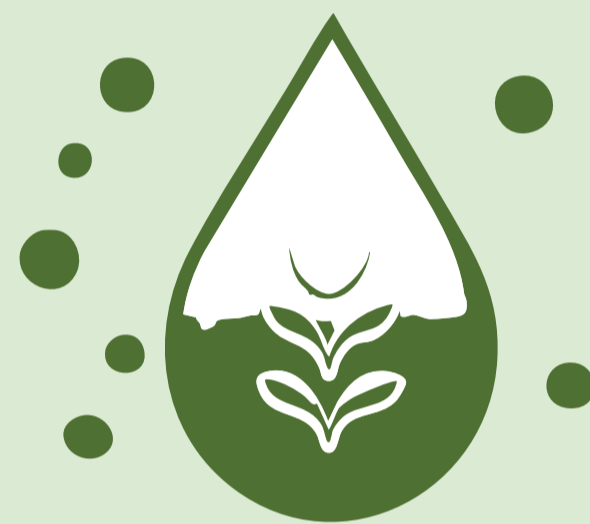

Executives from agriculture, waste management, and bio-based industries advancing sustainable solutions.

**Agribusiness & Food Processing Companies**

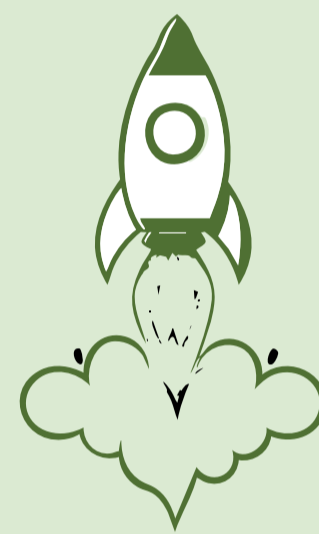

Driving sustainable sourcing, processing efficiency, and circular food systems.

**Biofuel, Renewable Energy & Biotech Firms**

Developing low-carbon, waste-derived energy and bio-based solutions for a sustainable future.

**Startups & Innovators:**

Pioneering new technologies in waste valorization and sustainable materials

**Academia & Research Institutions:**

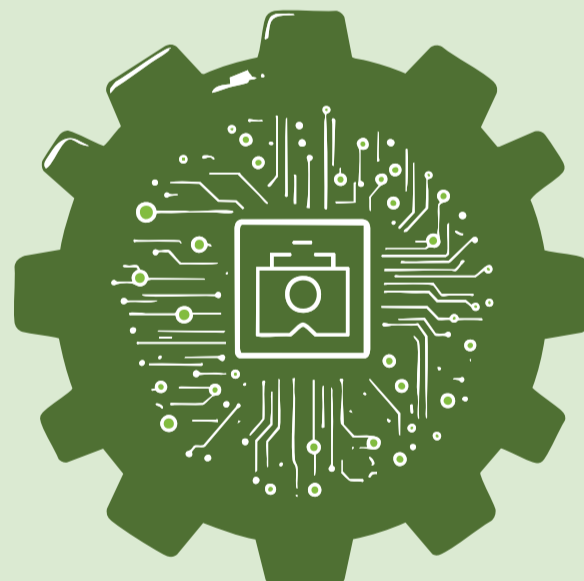

Experts shaping the future of circular economy through cutting-edge research

**NGOs & Sustainability Advocates:**

Driving community-focused initiatives and environmental action.

**Technology Providers**

Innovators in waste processing, recycling, and bio-product development.

**Investors & Financial Institutions:**

Seeking high-impact opportunities in agri-bio waste and circular economy ventures.

**International Organizations**

Global leaders in sustainability, climate action, and policy frameworks.

04.

## Exhibitor Profile

Why Your Brand Should Be Here

Position your company as a sustainability powerhouse.

- **Access to Decision-Makers** – Meet buyers, policymakers, and investors actively searching for solutions like yours.
- **Showcase Breakthrough Tech** – Demonstrate your cutting-edge innovations to an elite audience of sustainability pioneers.
- **Create Business Partnerships** – Secure high-value deals with agribusiness giants, FMCG brands, and government agencies.
- **Media & PR Exposure** – Gain visibility as a leader in circular economy solutions with top-tier media coverage.
- **Direct ROI & Lead Generation** – Get real business outcomes from face-to-face meetings with potential clients and investors.

### Who Should Exhibit?

- Bio-Waste Processing & Upcycling Tech Companies
- Waste-to-Energy & Biomass Solution Providers
- Alternative Protein & Sustainable Food Startups
- Smart Waste Tracking & AI-Powered Recycling Innovators
- Sustainable Packaging & Compostable Material Leaders
- Carbon Capture & Resource Recovery Experts

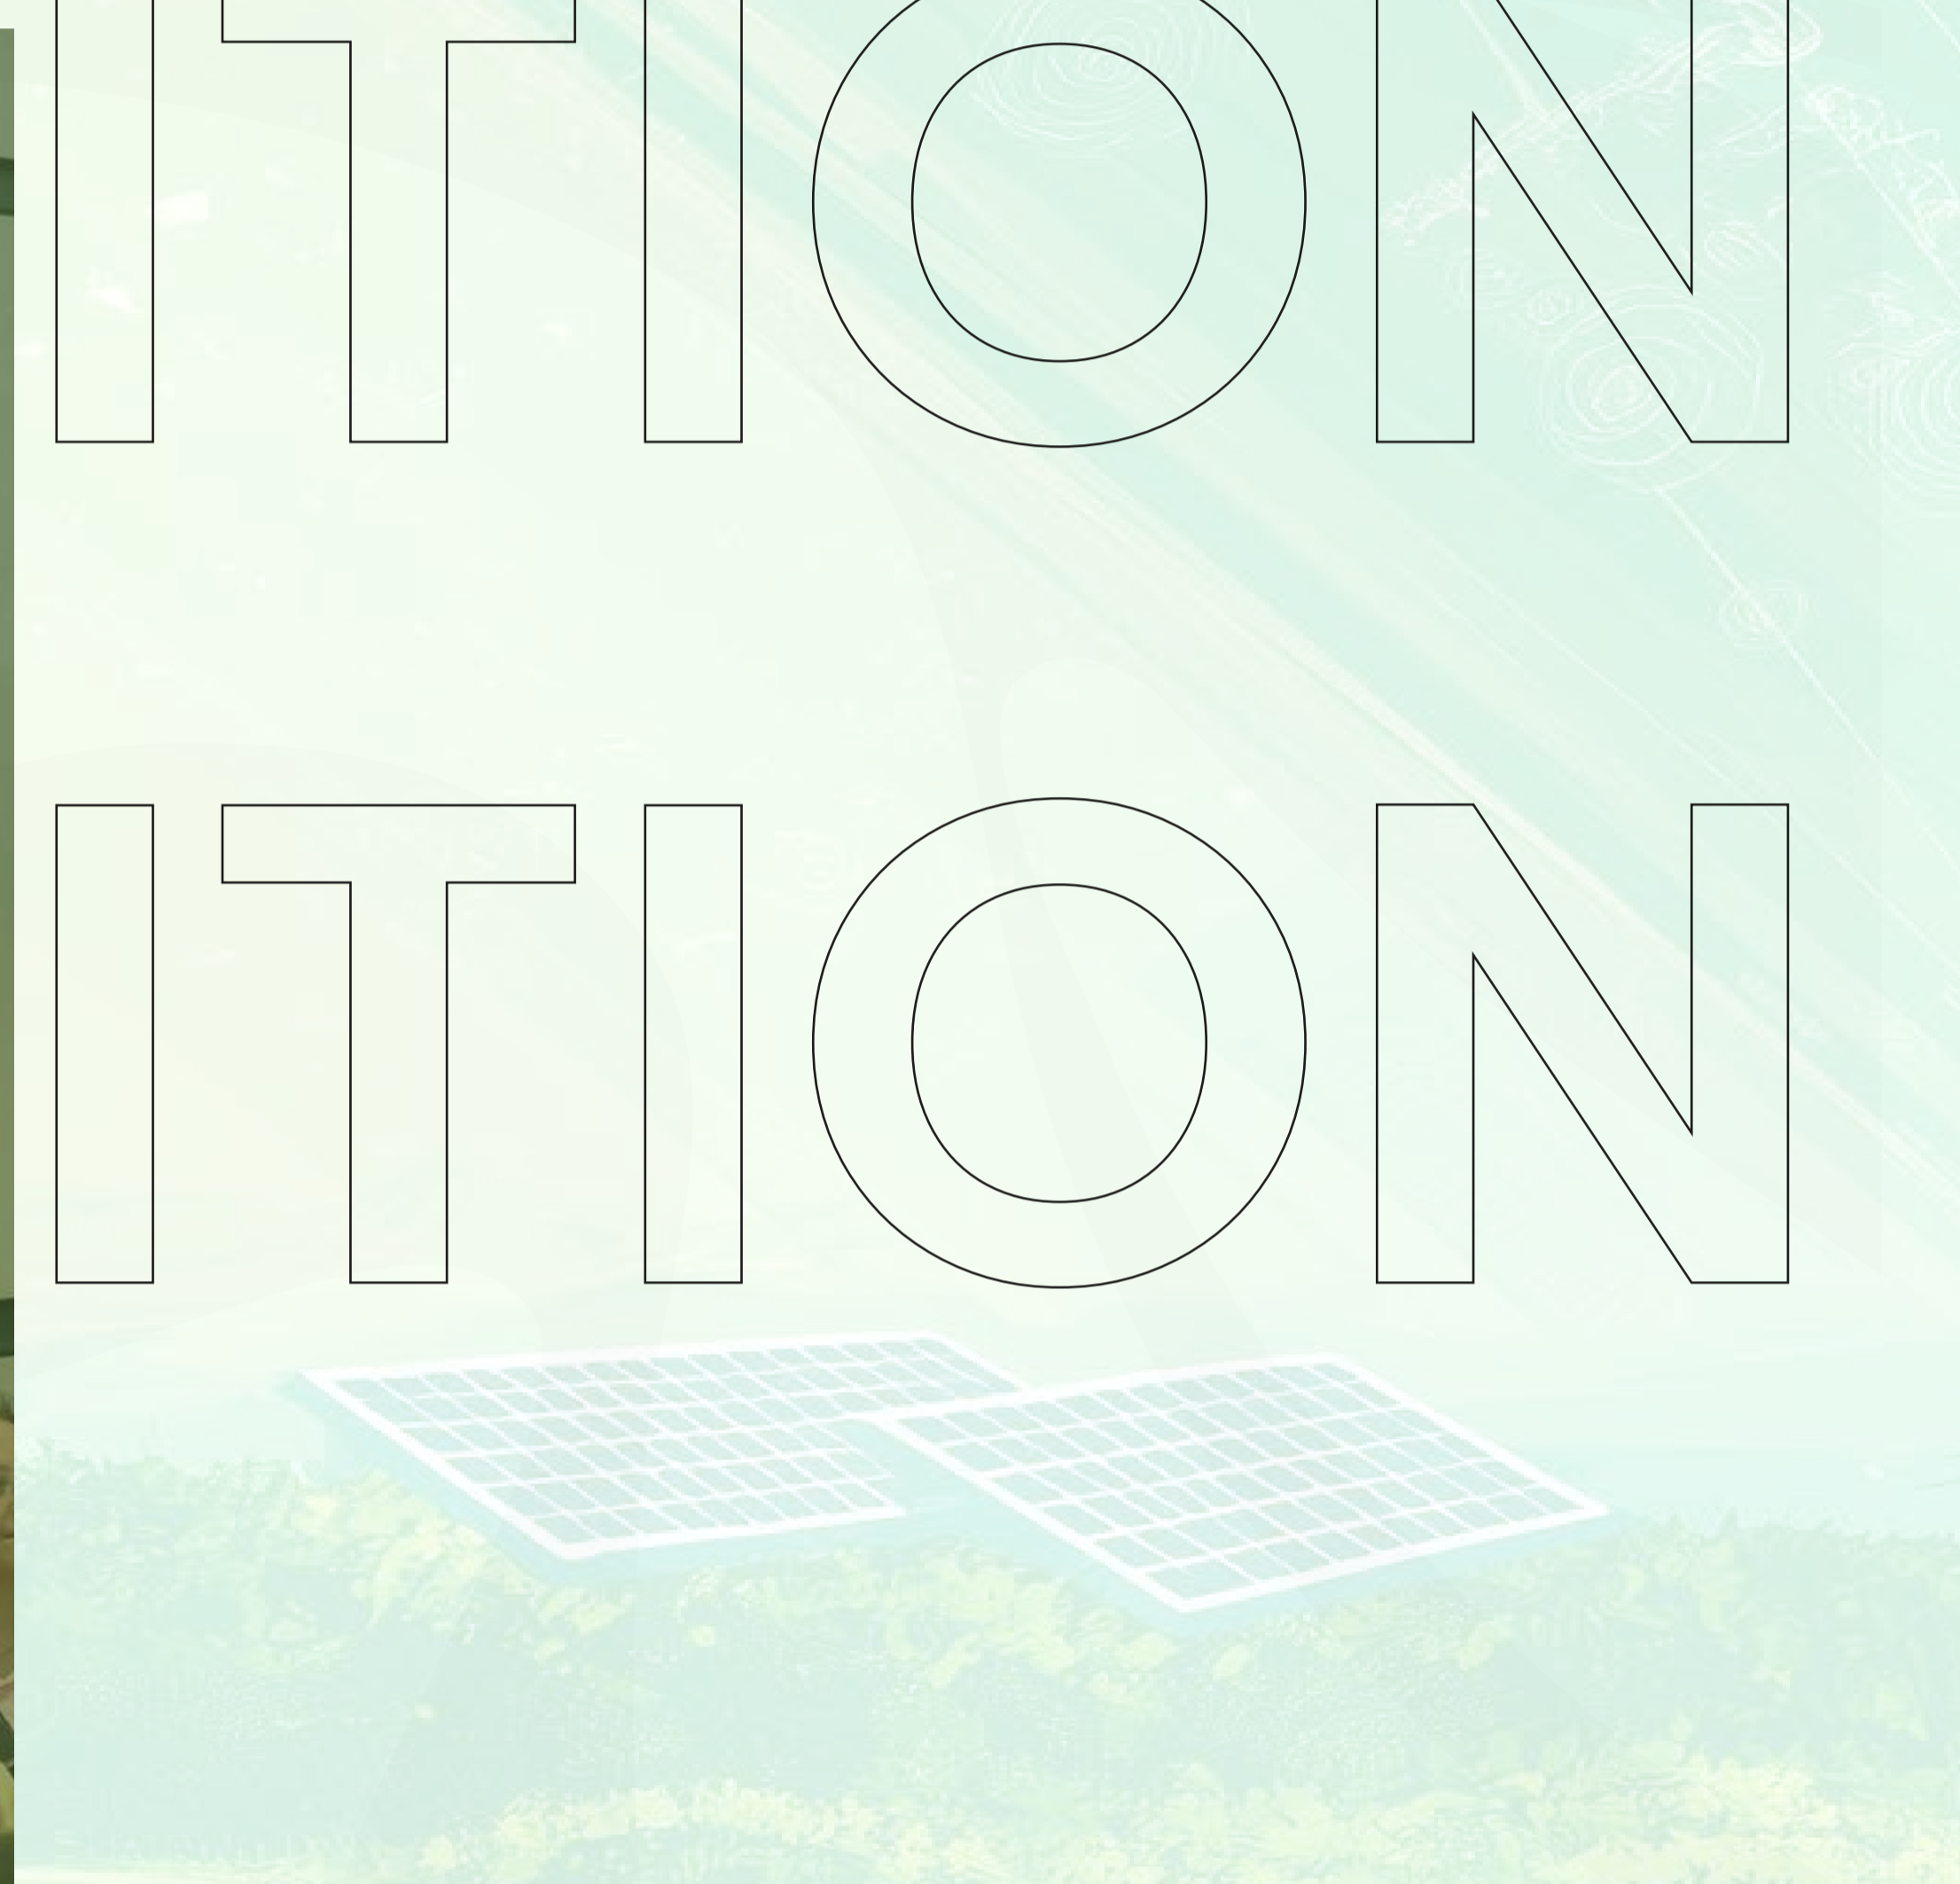

If your company is solving waste problems, you need to be here.

## UNSTOPPABLE SPIRIT!

05.

# Why Now? The Circular Economy is No Longer Optional.

- \$4.5 Trillion – The projected economic value of circular economy solutions by 2030.
- 300% Increase – Global investments in waste-to-value startups in the last five years.
- Net-Zero Targets – Companies that fail to adopt circular strategies risk non-compliance and lost market share.

You can be a spectator—or you can be a leader.

## Key Themes & Discussions

1

The Big Shift:  
Global Circular  
Economy Policies &  
What They Mean  
for You

2

The Billion-Dollar  
Opportunity in  
Bio-Waste  
Valorization

3

From Agri-Waste  
to Bio-Economy:  
The Future of  
Sustainable Food  
& Energy

4

The Rise of Smart  
Recycling &  
AI-Powered  
Waste Manage-  
ment

5

How Fortune 500  
Companies Are  
Implementing  
Circular Supply  
Chains

6

Industrial  
Symbiosis: The  
Next Frontier  
in Cross-Sector  
Collaboration

7

Regulations &  
Compliance: What  
Businesses Must  
Do to Stay Ahead

You don't just learn at this event—you gain actionable strategies to drive real-world impact.

06.

# Event Highlights

## Visionary Keynotes

Insights from industry leaders and global sustainability pioneers.

## Strategic B2B Matchmaking

One-on-one meetings designed to generate real business deals.

## High-Impact Panel Discussions

Unfiltered conversations on policy, investment, and game-changing innovations.

## Live Technology Demos

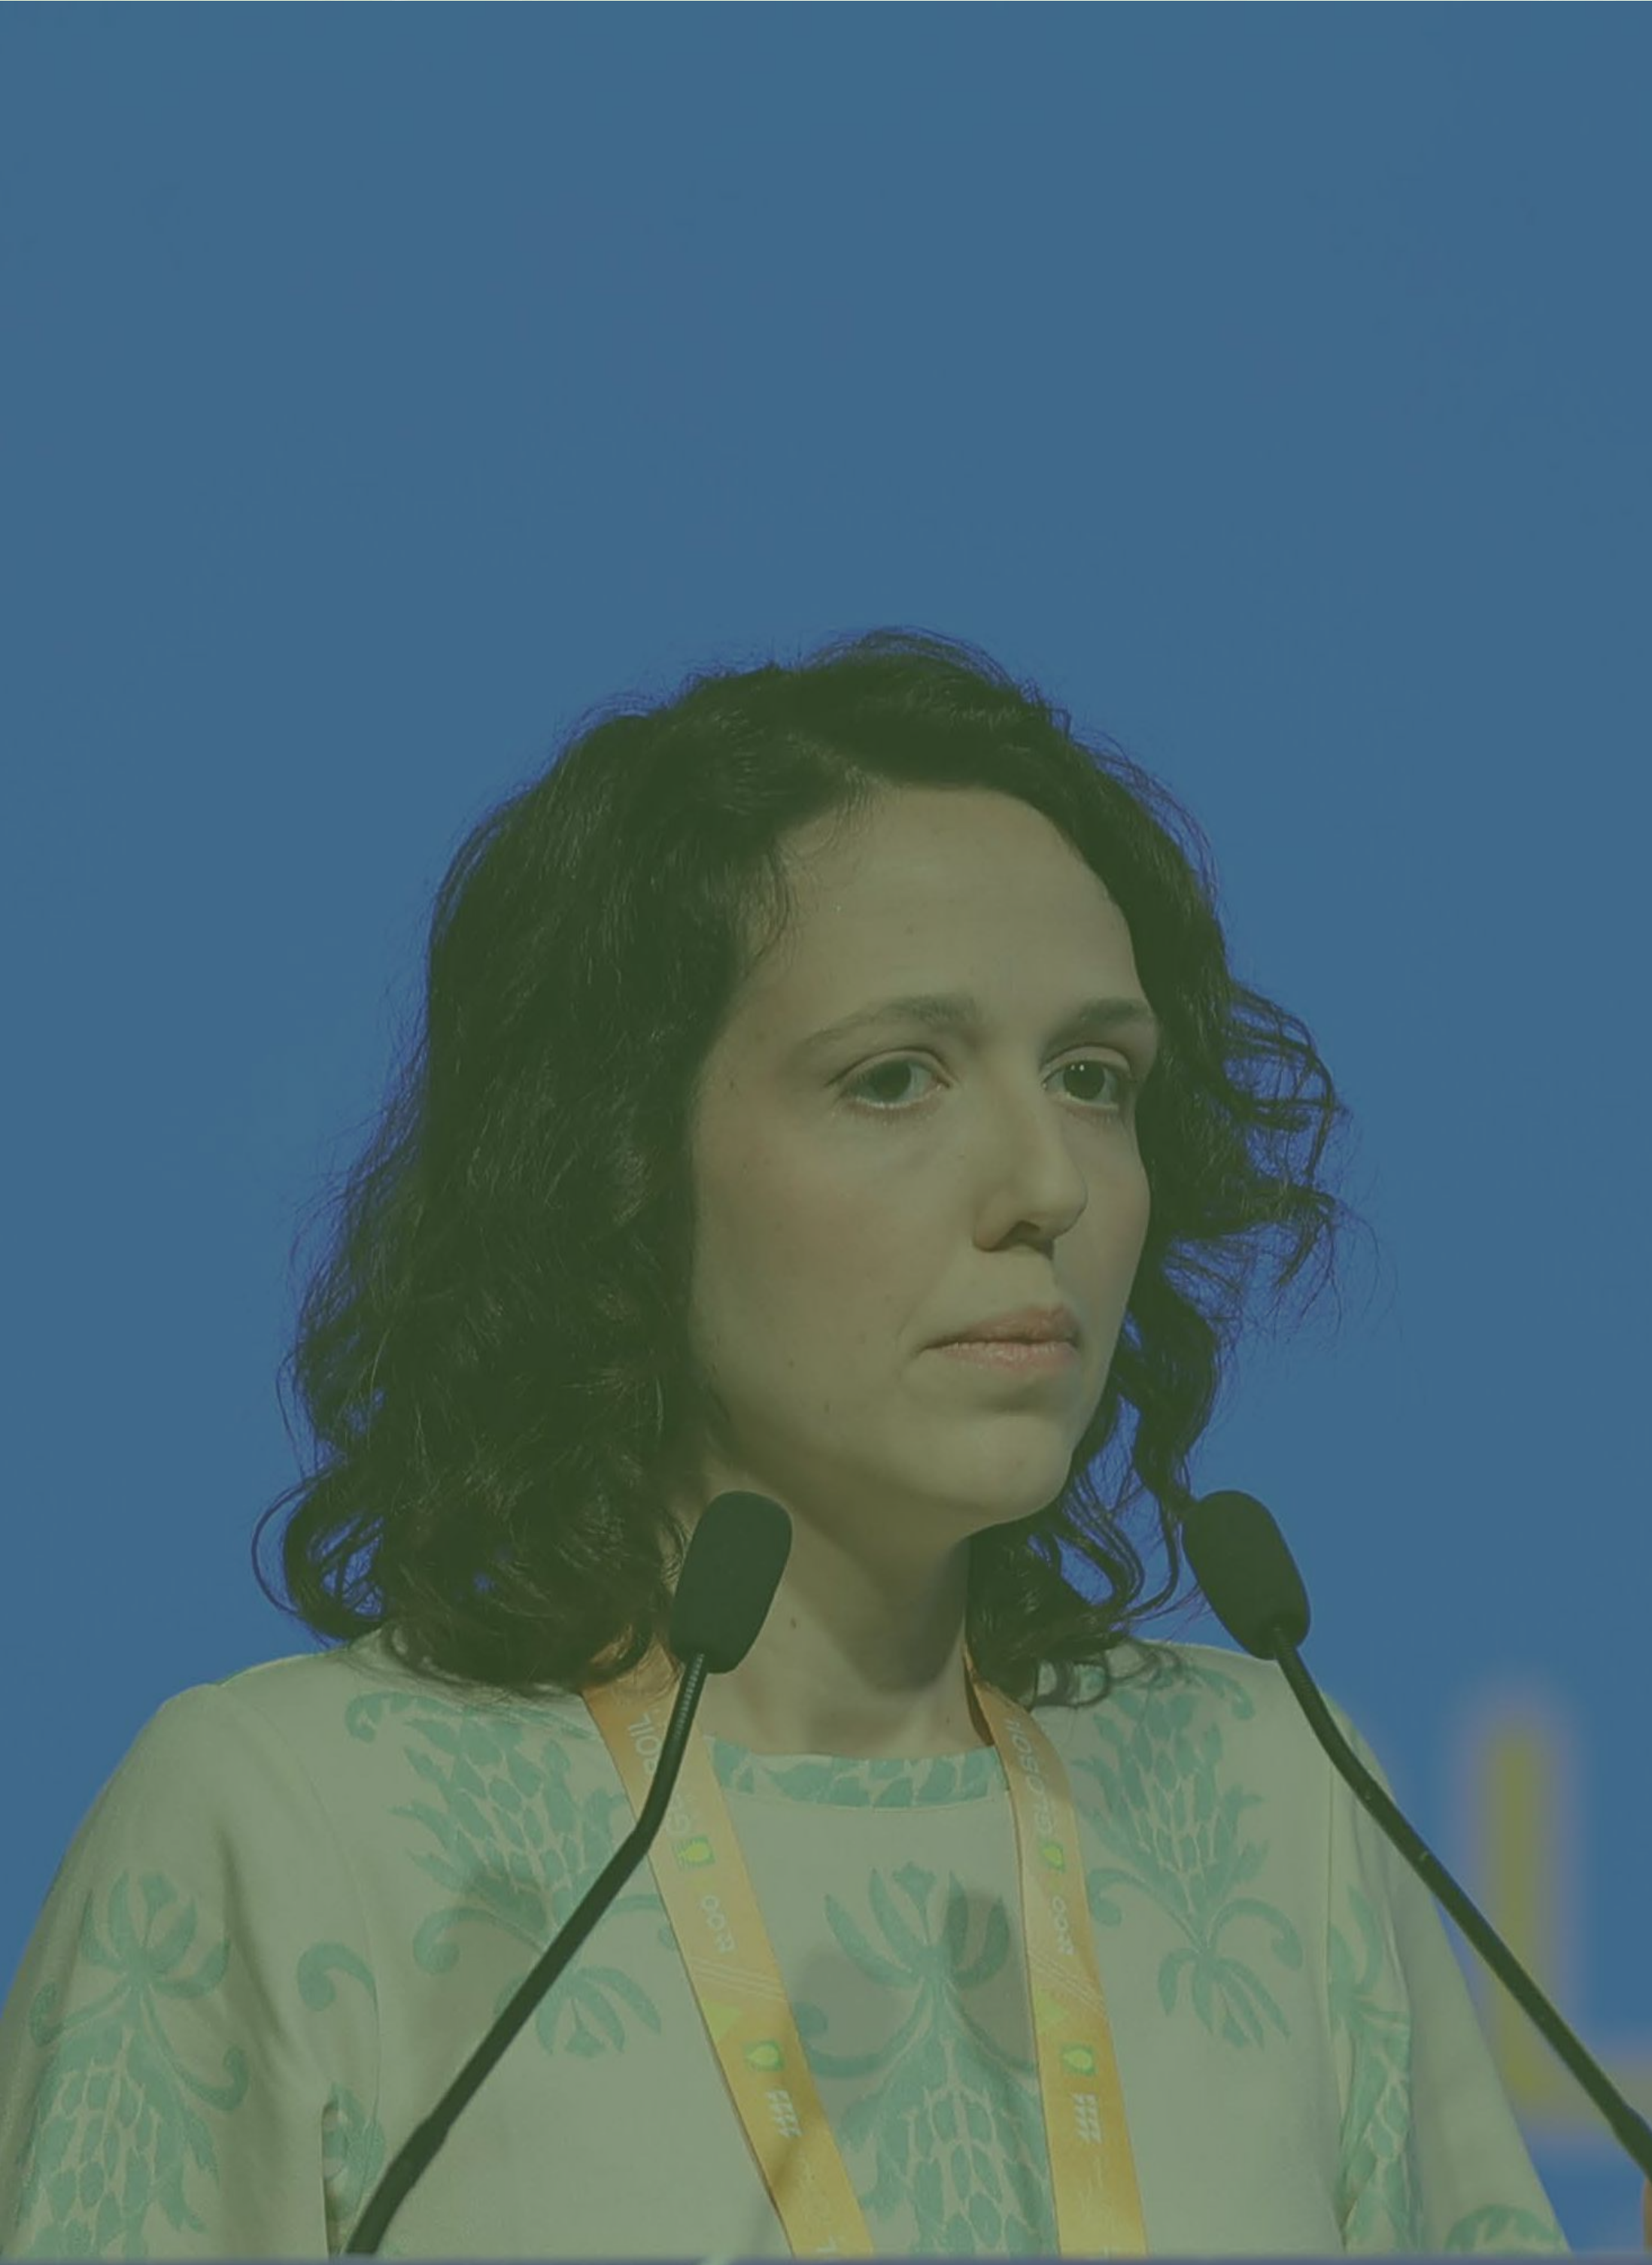

Get hands-on experience with the latest circular economy solutions.

## Startup & Investor Showcase

The hottest sustainability startups pitch to top-tier investors.

## Industry Awards

Recognizing the most impactful innovations and pioneers in waste transformation.

EVENT AGENDA

Agri & BioWaste Circular Economy Conclave  
Friday, 13th March

8:30 AM Onwards  
Registrations

TIME	TITLE	TOPICS COVERED
10:00 AM – 11:15 AM	From Linear to Circular: Reimagining Agri & BioWaste for a Sustainable Future	A global expert or policy leader in circular economy discussing the transition from linear waste systems to circular models, sustainability strategies, and supportive regulations.
11:15 AM – 11:35 AM	Energy Break	
11:30 AM – 12:20 PM	From Waste to Value: Cutting-edge Technologies & Startups Driving the Change	breakthrough technologies in biochar, bioplastics, biofuels & biofertilizers Use of AI & IoT in agri-waste monitoring Startup showcase of disruptive upcycling solutions Role of biotechnology in valorizing waste
12:20 PM – 1:00 PM	Building Resilient & Waste-Free Agri-Food Supply Chains	zero-waste strategies in agriculture & food systems Sustainable, circular packaging innovations Reducing post-harvest and retail food loss Upcycling food waste into animal feed & protein
1:00 PM – 2:15 PM	Networking Lunch	
2:15 PM – 3:00 PM	Powering the Future: Biofuels, Biogas & Renewable Energy from Waste	Economic & climate case for biofuels/biogas Scalable anaerobic digestion tech Bioenergy potential in rural and peri-urban settings Finance & policy enablers for renewable energy from waste

08.

TENTATIVE  
EVENT AGENDA

Agri & BioWaste Circular Economy Conclave  
Friday, 13th March

TIME	TITLE	TOPICS COVERED
3:00 PM – 3:45 PM	Closing the Loop: Sustainable Packaging, Textiles & Biomaterials from Agri-Waste	Green packaging from bamboo, bagasse, corn husk Bio-based textiles (cotton, hemp, agri-residues) Industrial use of bio-composites Commercial scaling of circular materials
3:45 PM – 4:10 PM	Networking Energy Break	
4:10 PM – 5:00 PM	Scaling Circular Economy: Market Trends, Business Models & Trade	Subscription and upcycling-based models Public-private and cross-sector partnerships Trade & export potential of bio-based goods E-commerce for circular agri-waste products
5:00 PM – 6:30 PM	Ministerial Address, Awards & Felicitation	Highlights from the day Key policy and industry recommendations Closing keynote and call to action for stakeholders
6:30 PM Onwards	Tefla’s Forthcoming Events Preview	Networking, Cocktails & Dinner

# See You Soon!

This event is not just about attending—it's about getting ahead of the competition. The industry is shifting. Policies are changing. Investments are flowing. The real question is: Will you lead, or will you follow?

The future is circular. Will you be part of it?
