On 4 March, IMT Asset Management AG was named the best independent asset manager based in Liechtenstein for the fifth consecutive year at the prestigious WealthBriefing Swiss EAM Awards ceremony in Zurich. In addition, IMT Asset Management AG received an award for its “Private Markets Offering”. This recognition highlights the firm’s outstanding expertise in this dynamically growing market segment.

These awards honour independent asset managers in Switzerland and Liechtenstein who stand out through innovation, excellence, and sustainable success. The evaluation is carried out by a panel of experienced, independent professionals from the financial industry.

Dr. Erek Nuener, Chairman of the Board of Directors, explains:

„Being recognised once again as one of Liechtenstein’s leading asset managers represents an important milestone for us. It demonstrates how consistently our team applies its strong professional expertise, innovative spirit and deep commitment to the continuous development of our services. I would particularly like to highlight the award for our ‘Private Markets Offering’. It honours our long-standing focus on private equity and our strong track record in this field.

My sincere thanks go to our clients for their trust and to our employees for their dedication every single day. These awards encourage us to continue on our strategic path – with a clear focus on high-quality investment solutions, personalised client service and long-term partnership.”
