

OVERVIEW

Proveo Automation is an **AI-first federal modernization partner** specializing in mission automation, secure AI integration, and the delivery of scalable, compliant, and efficient enterprise systems. We engineer solutions that reduce operational burden, modernize legacy workflows, and enhance mission readiness across Federal agencies. Proveo brings deep domain expertise, a rapid delivery model, and a proven track record in regulated, high-impact environments. Our solution services prioritize security, compliance, automation, and measurable cost savings.

CORE SERVICES

We use a variety of advanced technologies to drive innovation, enhance operational efficiency, automate processes, enable data-driven decision-making, and create scalable and secure IT solutions for clients.

AI & Automation Modernization:

- Generative AI & LLM integration
- Intelligent workflow automation
- Mission-focused RPA and autonomous agents
- AI-enabled data processing and triage
- Computer Vision for evidence, risk, and operational workloads
- Automated reporting and decision-support systems

Application & Systems Engineering:

- Low-Code/No-Code Development
- Agile Software Development
- Modernization of legacy systems
- API engineering and system interoperability
- DevSecOps, CI/CD and automated delivery pipelines
- Customer Experience (CX) design

Data & Analytics Engineering:

- Predictive and advanced analytics
- Real-time dashboards and mission insights
- Machine Learning
- Data fabric, governance and lineage frameworks
- Secure data platforms, data warehouses and data lakes
- ETL automation and AI-powered data quality control

Cloud & Infrastructure Modernization:

- AWS, Azure, and GCP cloud services
- Serverless and containerized architectures
- Zero Trust-aligned environments
- High-availability, scalable infrastructure engineering
- Micro-Services

Advisory & Strategic Services:

- AI Readiness and modernization assessments
- Workflow and process automation strategy
- Technology roadmaps and enterprise transformation
- Portfolio rationalization and efficiency planning

DIFFERENTIATORS**AI-trained workforce with hands-on federal delivery experience**

AI-First Delivery Model: Automation embedded across the lifecycle reducing labor intensity, accelerating time-to-value, and increasing mission throughput.

Mission-Driven Automation Expertise: Deep experience supporting high-visibility programs requiring accuracy, traceability, and repeatable automation.

Repeatable IP and Accelerated Delivery: Reusable automation frameworks, AI components, and cloud templates that shorten implementation timelines and improve consistency.

Compliance by Design Architecture: Solutions engineered to meet rigorous Federal security, privacy, and regulatory standards from day one.

Proven Performance in Regulated Environments: Successful multi-year engagements across DHS, financial regulatory environments, and other high-security domains.

As the prime contractor, Proveo designed, engineered, and deployed an enterprise data analytics platform, **now DHS's authoritative data source for acquisition oversight, driving a 90% efficiency boost** and reducing document search time from hours to seconds through AI-enabled automation, RPA, cloud architecture, and full-stack development.

DEPARTMENT OF HOMELAND SECURITY (DHS) CYBERSECURITY & INFRASTRUCTURE SECURITY AGENCY (CISA)

Proveo serves as a key delivery partner on CISA OCIO's first enterprise AI application, CISAChat, developing key AI components that enable enterprise-wide knowledge management and fast information retrieval. Our team delivers secure, compliant AI capabilities that advance CISA's internal and public-facing information access.

**FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC)**

Proveo supported the FDIC Chief Data Officer Staff by defining and maturing the agency's AI/ML strategy, automating the enterprise AI use-case inventory in ServiceNow, developing NIST/OMB-aligned governance frameworks, and delivering AI/ML training and communications that advanced FDIC's transformation into a data-driven organization.
