

FORGE by Proveo

- The Federal Mission OS.
- Built for agentic operations. Trusted by federal agencies.

CAPABILITY STATEMENT

FORGE

The Federal Mission OS

FORGE turns existing federal AI investments into a delivered, auditable mission workforce - delivering agency-specific mission Use Cases (executed by Playbooks), governed by federal compliance frameworks, and procurable through 8(a) Direct Sole Source or GSA MAS.

OVERVIEW

Proveo Automation is an AI-first federal modernization partner and the developer of FORGE - The Federal Mission OS. We deliver agentic automation, secure AI integration, and mission-ready enterprise systems across defense, homeland security, intelligence, health, and financial regulatory environments.

CORE SERVICES

AI & Automation Modernization

- FORGE mission Use Case delivery and agentic AI orchestration
- Generative AI & LLM integration, intelligent RPA, autonomous agents
- AI-enabled data processing, computer vision, and decision support

Application & Systems Engineering

- Low-Code / No-Code development and legacy modernization
- Agile software, API engineering, and system interoperability
- DevSecOps, CI/CD pipelines, and CX portal engineering

Data & Analytics Engineering

- Predictive analytics, ML pipelines, and real-time dashboards
- Data fabric, governance, lineage, and secure data platforms
- ETL automation and AI-powered data quality engineering

Cloud & Infrastructure Modernization

- AWS, Azure, and GCP cloud services - FedRAMP-aligned
- Zero Trust environments, serverless and containerized architectures
- High-availability infrastructure and DevSecOps pipelines

Advisory & Strategic Services

- AI readiness assessments and outcome-based use-case scoping (OMB M-25-21).
- Automation strategy, technology roadmaps, and enterprise transformation
- Portfolio rationalization and efficiency planning

PAST PERFORMANCE

DEPT. OF HOMELAND SECURITY (DHS)

Management Directorate

DEPT. OF HOMELAND SECURITY (DHS)

Cybersecurity & Infrastructure Security Agency (CISA)

Prime contractor on DHS's enterprise data analytics platform - now the authoritative acquisition oversight data source. Delivered a 90% efficiency boost and reduced document search time from hours to seconds through AI, RPA, and cloud engineering.

Key delivery partner on CISA OCIO's first enterprise AI application - CISASat. Developed AI components enabling enterprise-wide knowledge management and fast information retrieval across CISA's internal and public-facing systems.

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC)

Chief Data Officer Staff

Defined and matured the FDIC AI/ML strategy, automated the enterprise AI use-case inventory in ServiceNow, built NIST/OMB-aligned governance frameworks, and delivered AI/ML training advancing FDIC's data-driven transformation.

COMPANY INFORMATION

UEI: ULN8PNGM1KH3

DUNS Number: 080426137

CAGE Code: 8CWQ9

EIN: 81-4141250

SAM Registration: Active

Ownership: Hispanic American SDB

Certifications: SBA 8(a) Certified (Through 2031)

Contract Holder

GSA Contract: 47QTCA25D00BD

SIN(s): 54151S – IT Professional Services

GSA Expires: 06/12/2030

NAICS CODES

- 541511 – Custom Computer Programming
- 541512 – Computer Systems Design Services
- 541519 – Other Computer-Related Services
- 541990 – All Other Professional & Technical
- 541611 – Admin. Management Consulting
- 541618 – Other Management Consulting
- 541690 – Other Scientific & Technical Consulting

DIFFERENTIATORS

AI-Trained Federal Workforce: Hands-on delivery across high-impact federal programs.

Outcome-Based Delivery: Priced per mission Use Case - you pay for the mission outcome, not contractor hours. Aligned with OMB AI guidance and federal acquisition reform.

FORGE - Proprietary Mission OS: Auditable agentic outcomes from existing AI investments.

Mission-Driven Automation: Proven accuracy, traceability, and repeatable execution.

Compliance by Design: Built to FAR, HSAR, FedRAMP, and OMB from day one.

Accelerated Delivery IP: Reusable frameworks that shorten implementation timelines.
