

Meet our Cloudi-Fiers

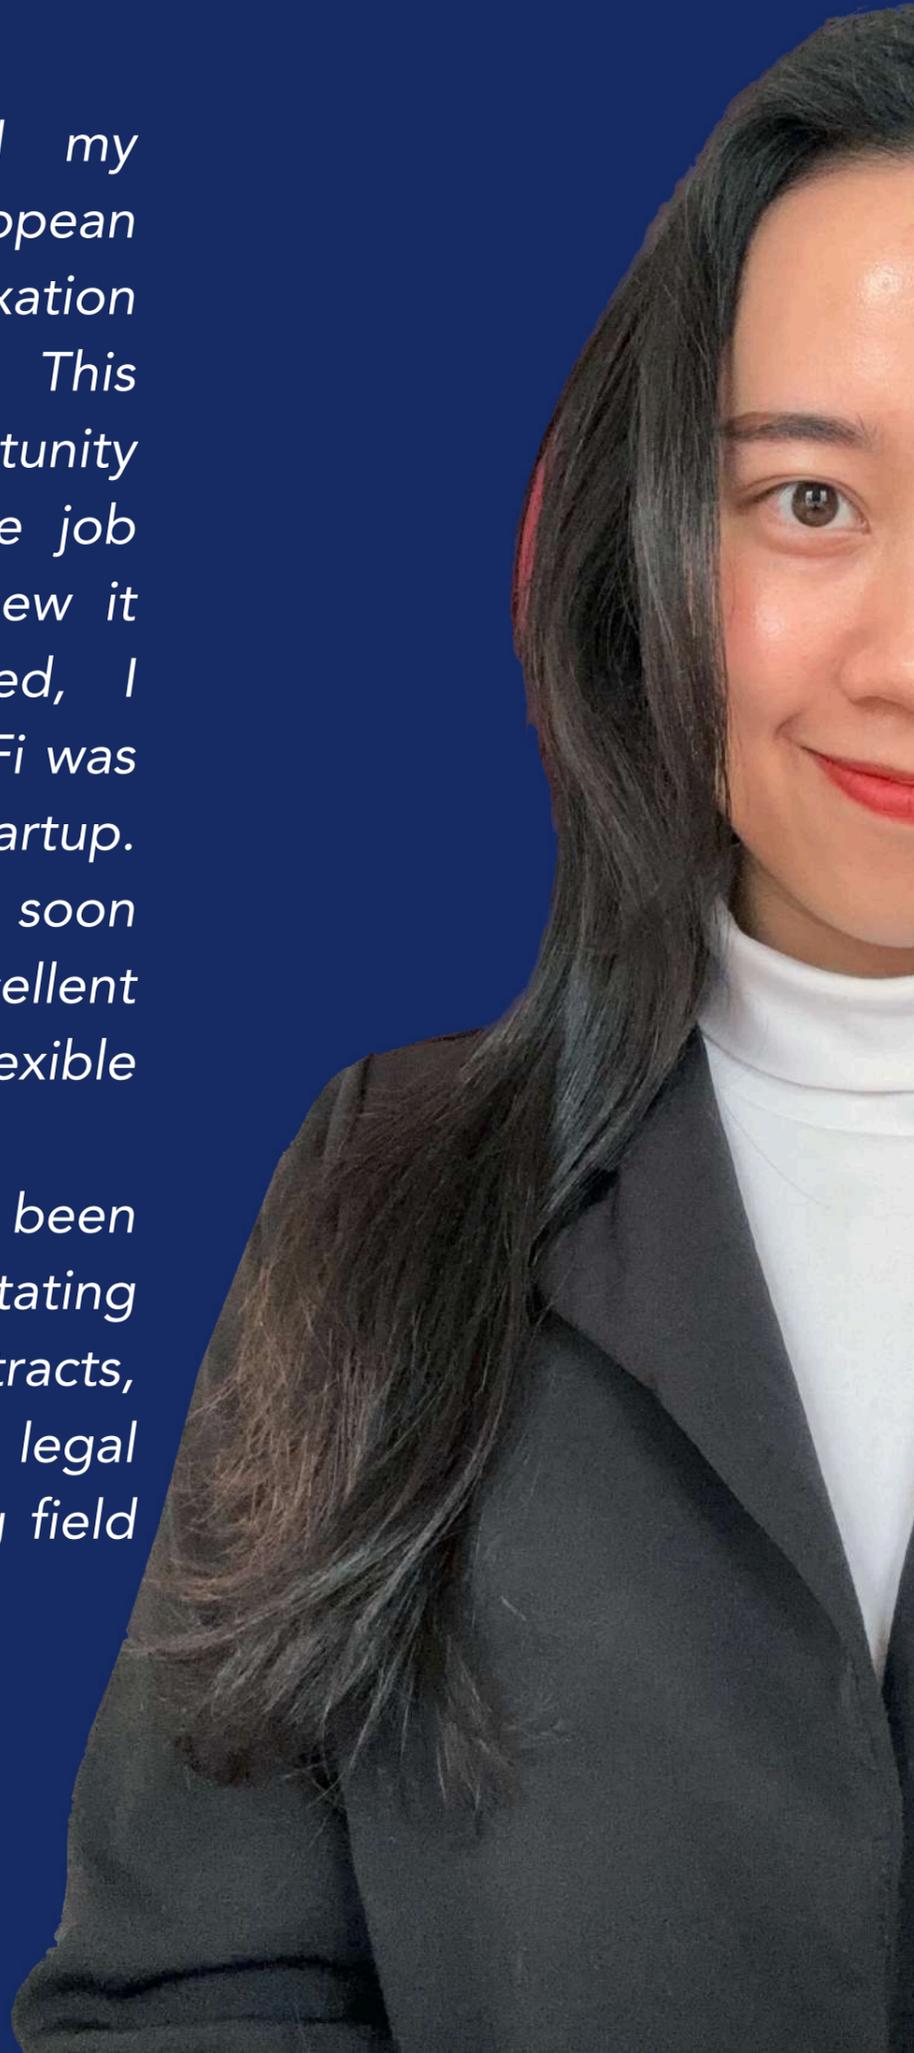

3 THINGS TO
KNOW ABOUT
Hai Chi
Legal Counsel

1 FROM INTERN TO LEGAL COUNSEL

"Coming from Vietnam, I pursued my Master's Degree in French and European Union Law in France, specializing in taxation law, business law, and compliance. This journey led me to the incredible opportunity to work at Cloudi-Fi. When I saw the job posting on LinkedIn, I immediately knew it was a perfect fit for me. Intrigued, I researched and discovered that Cloudi-Fi was a fascinating and rapidly growing tech startup. I began my journey as an intern and soon decided to stay due to the excellent environment, supportive people, and flexible remote work policy.

Over the months at Cloudi-Fi, I have been dedicated to handling legal issues, facilitating the business process by reviewing contracts, ensuring compliance, and resolving legal problems, especially in the fast-evolving field of technology and personal data."

2 THE COLLABORATIVE ENVIRONMENT MADE ALL THE DIFFERENCE

"As a tech startup, Cloudi-Fi applies a lot of new and creative working methods making it really easy to work from anywhere. Everyone is very supportive and friendly, we help each other and work together to achieve the same goal, which I believe is such a great environment to work in."

3 FAVORITE REMOTE WORK SPOT

“Working mostly remotely, my favorite workplace spot is a coffee shop. It’s the perfect balance – not too busy since everyone around me is working too, and not too quiet like working alone at home. I enjoy a nice cup of coffee with a beautiful city view on a fine-weather day. Early on, Cloudi-Fi trusted me to find the best conditions for my professional growth. This flexibility even allowed me to work from Vietnam occasionally, giving me the precious opportunity to reunite with my family after months of separation. These working conditions enhance my productivity and reinforce my appreciation for Cloudi-Fi’s supportive and adaptable work culture.”
