STEEL DOORS
& WINDOWS

Product Handbook

2025

INTRODUCTION

Polish Interior was founded in Kraków, Poland in 2005, with our UK limited company established a decade later in 2015.

But our story begins much earlier - at the turn of the 20th century - when our ancestor owned a metallurgical plant producing metal components for steam locomotives serving a Viennese company in the former Austrian Empire.

From the very beginning, we've embraced an engineering mindset, combining technical precision with a deep appreciation for design. We place high value on the aesthetic quality of our products, often incorporating distinctive design

choices such as custom RAL colours, blackened steel, stainless steel, and copper finishes.

Every project we undertake is approached individually. At our dedicated R&D centre, we develop innovative prototypes - including handles, locks, pull handles, moving mechanisms, and door bolts.

Quality and reliability are always our top priorities. That's why we rigorously test our products - whether for water, wind, and air resistance (NAFS) or the fire performance of our proprietary internal steel door systems.

External Doors

ARTE2.0 | Single Door | Single Door with Sidelight

- Style: Single Door
- Material: Galvanized, thermally broken steel
- Lock: Multipoint secure locking
- Colour: RAL's, Powder coated, anti- corrosion
- Location: External
- Glass: Tempered, double or triple glazed
- Glass Style: Clear | frosted | sun protected
- Description: Slim, distinctive, solid

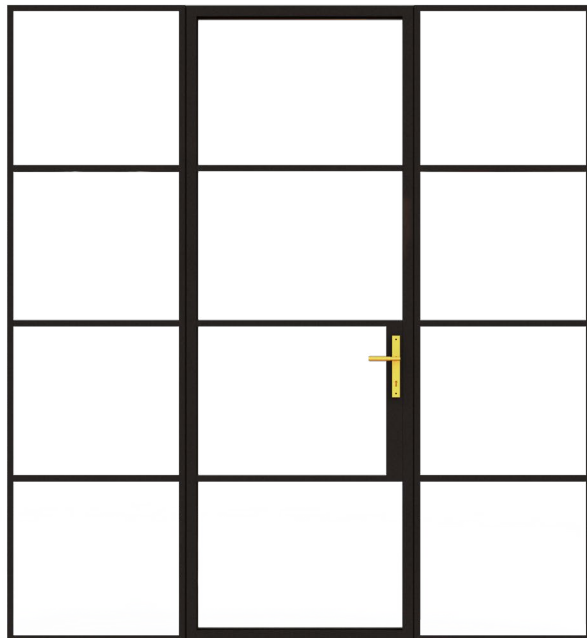

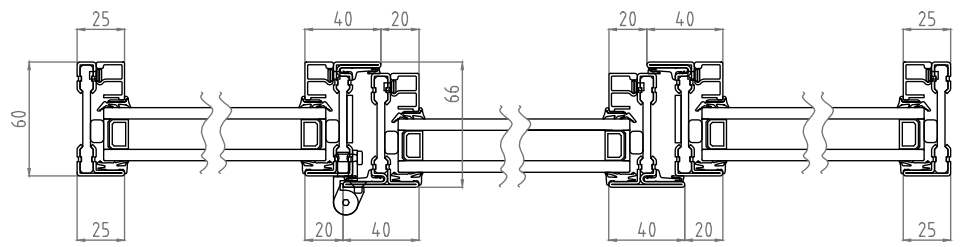

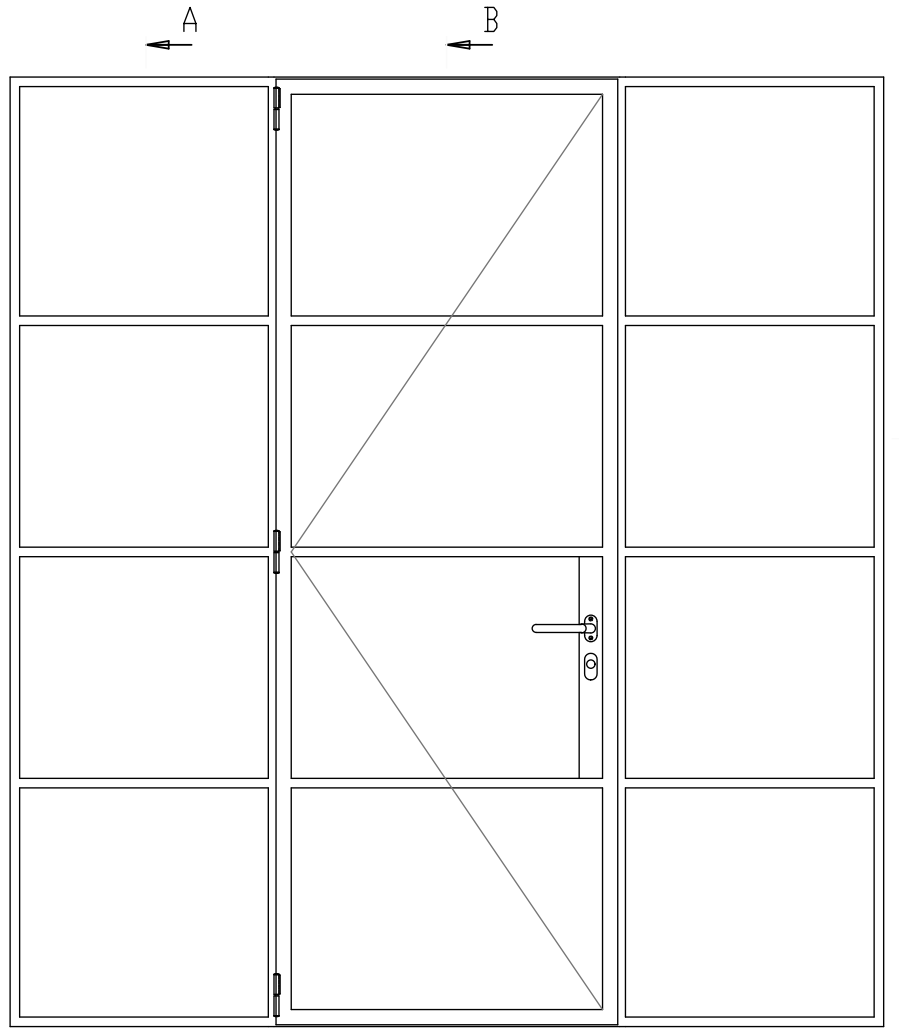

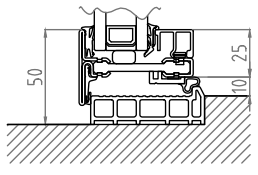

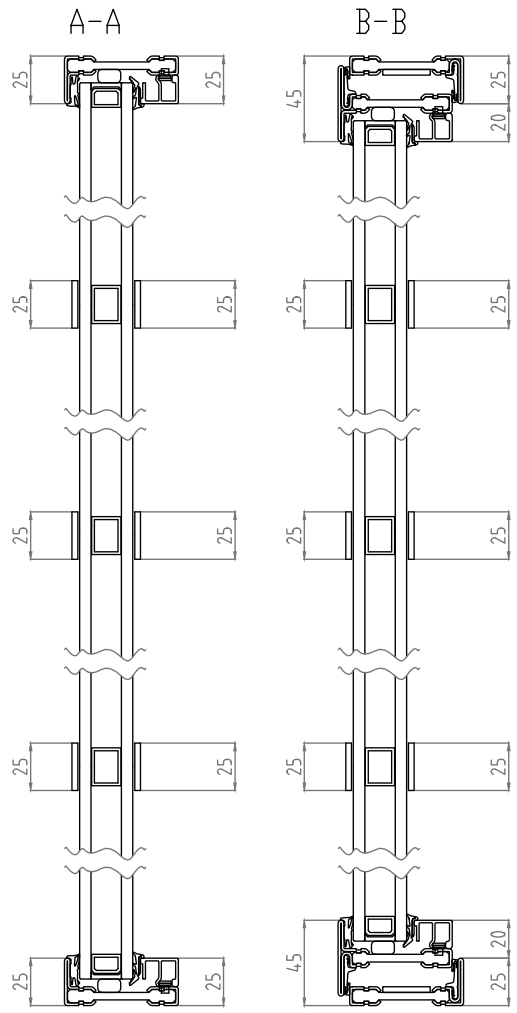

External Doors

ARTE2.0 | Single Door with Sidelights

Style: Single Door
Material: Galvanized, thermally broken steel
Lock: Multipoint secure locking
Colour: RAL's, Powder coated, anti- corrosion
Location: External
Glass: Tempered, double or triple glazed
Glass Style: Clear | frosted | sun protected
Description: Slim, distinctive, solid

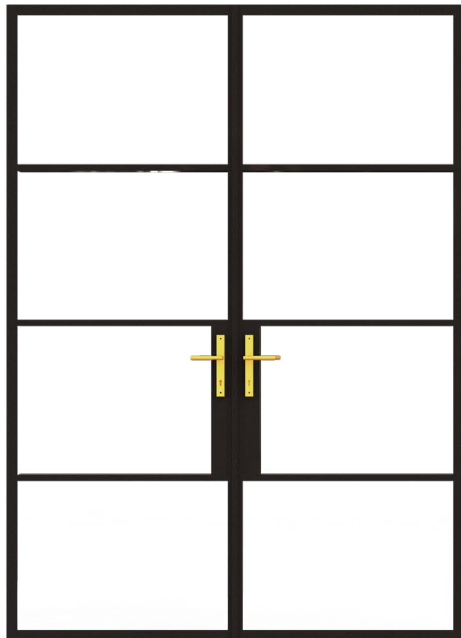

C-C

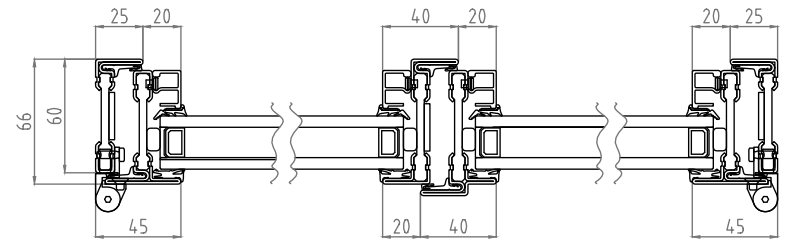

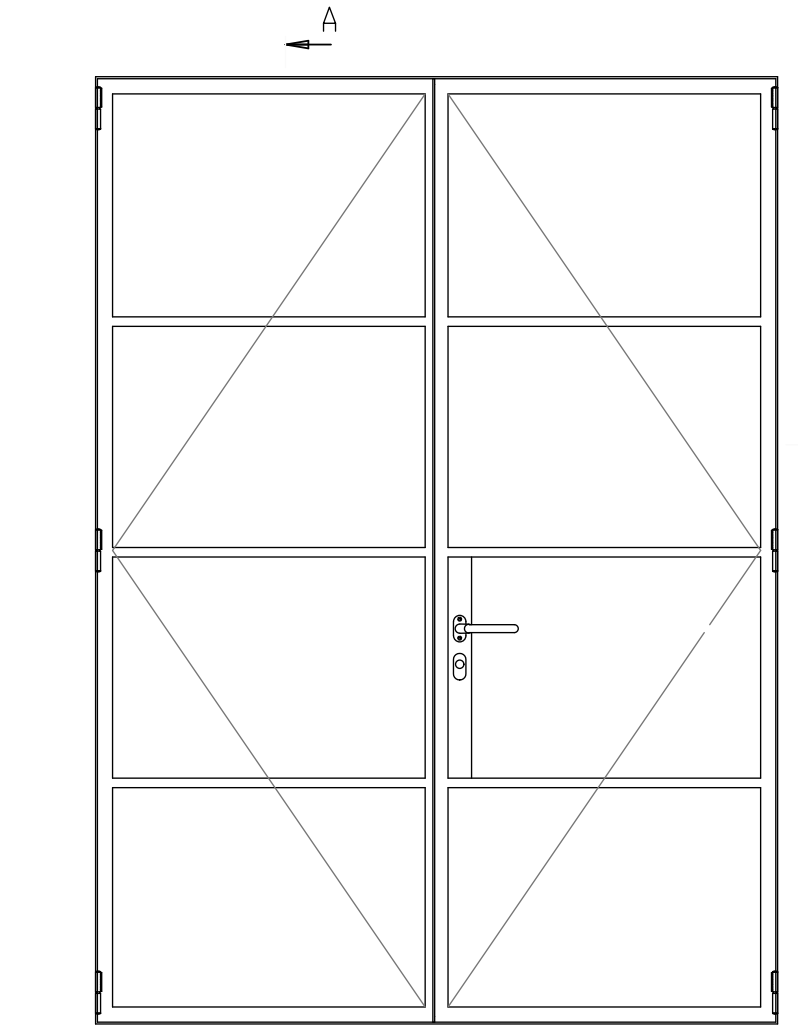

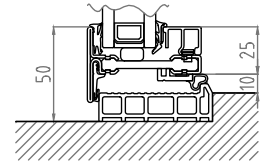

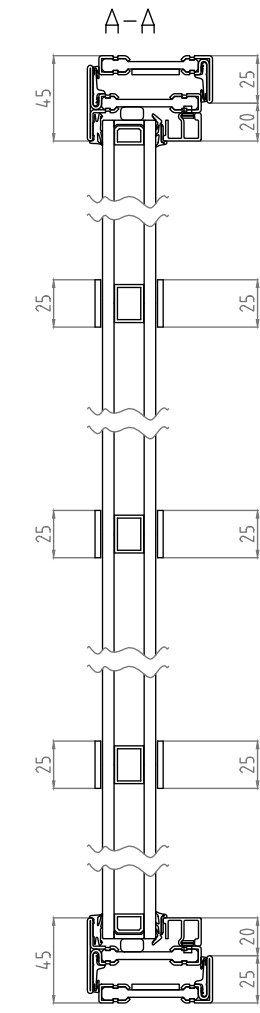

External Doors

ARTE2.0 | Double Door

Style: Double Door
Material: Galvanized, thermally broken steel
Lock: Multipoint secure locking
Colour: RAL's, Powder coated, anti- corrosion
Location: External
Glass: Tempered, double or triple glazed
Glass Style: Clear | frosted | sun protected
Description: Slim, distinctive, solid

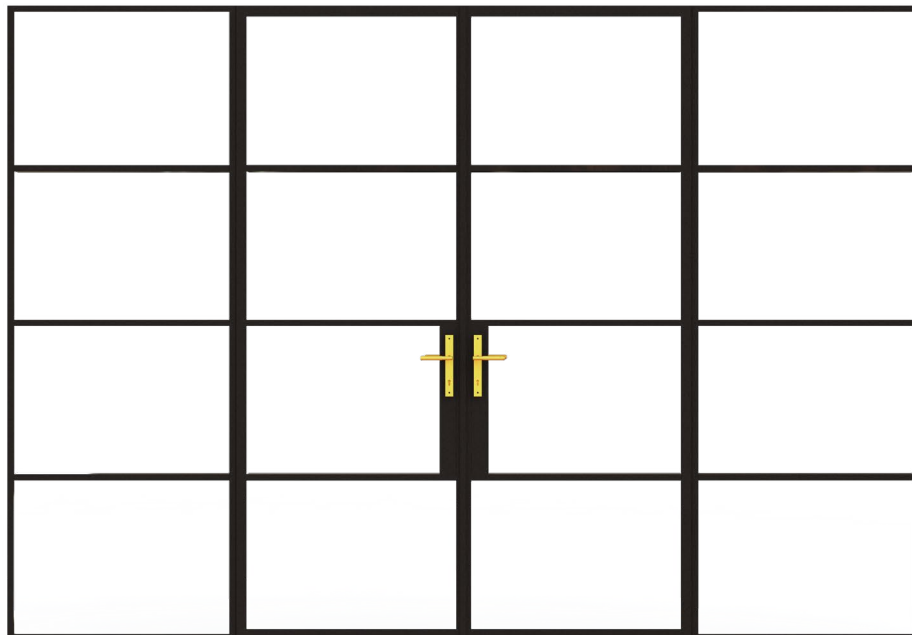

B-B

External Doors

ARTE2.0 | Double Door with Sidelights

- Style: Double Door
- Material: Galvanized, thermally broken steel
- Lock: Multipoint secure locking
- Colour: RAL's, Powder coated, anti- corrosion
- Location: External
- Glass: Tempered, double or triple glazed
- Glass Style: Clear | frosted | sun protected
- Description: Slim, distinctive, solid

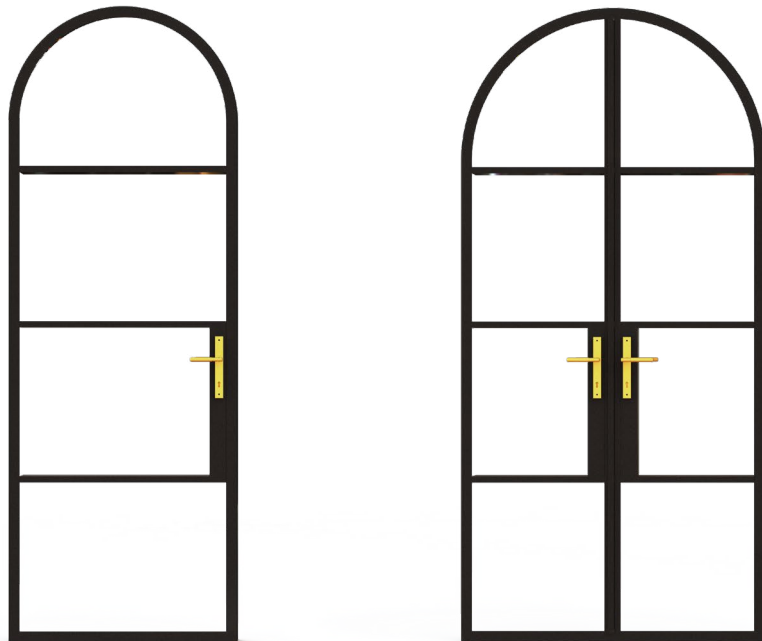

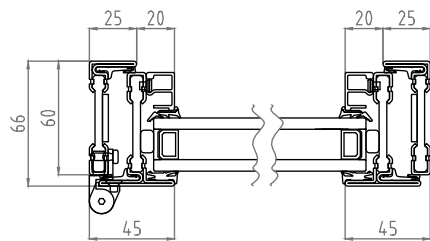

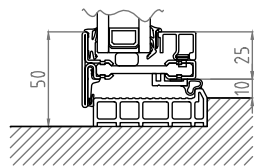

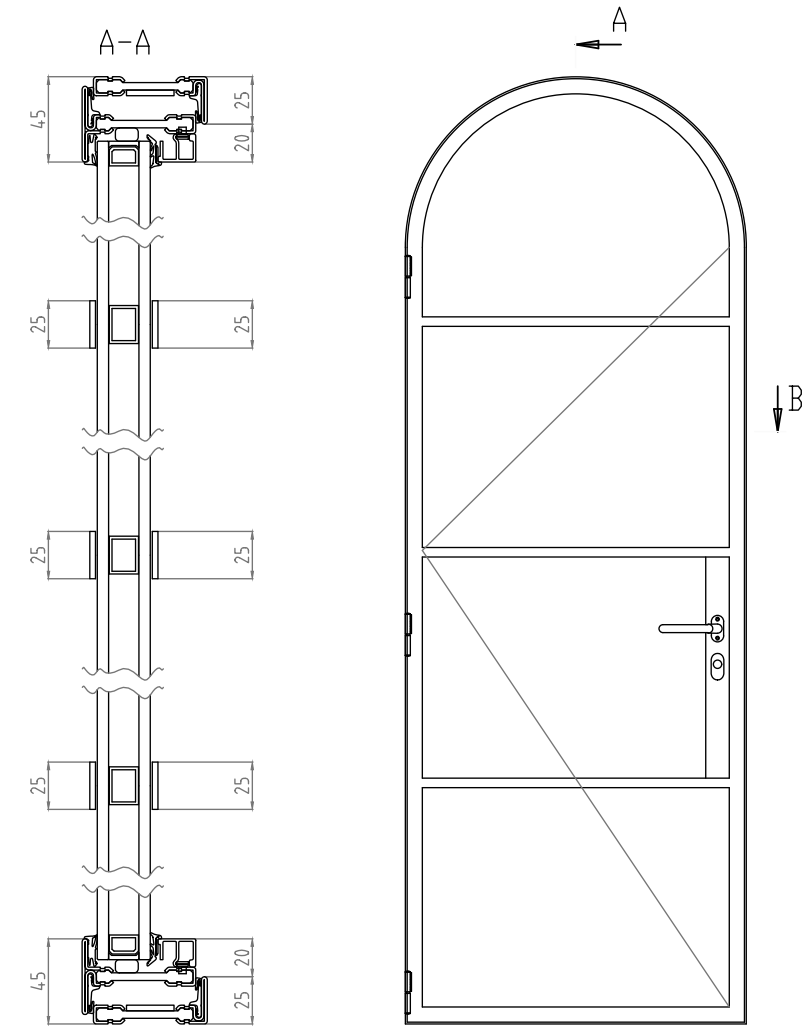

External Doors

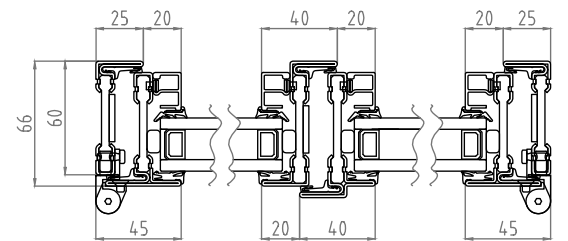

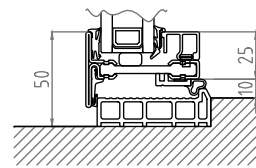

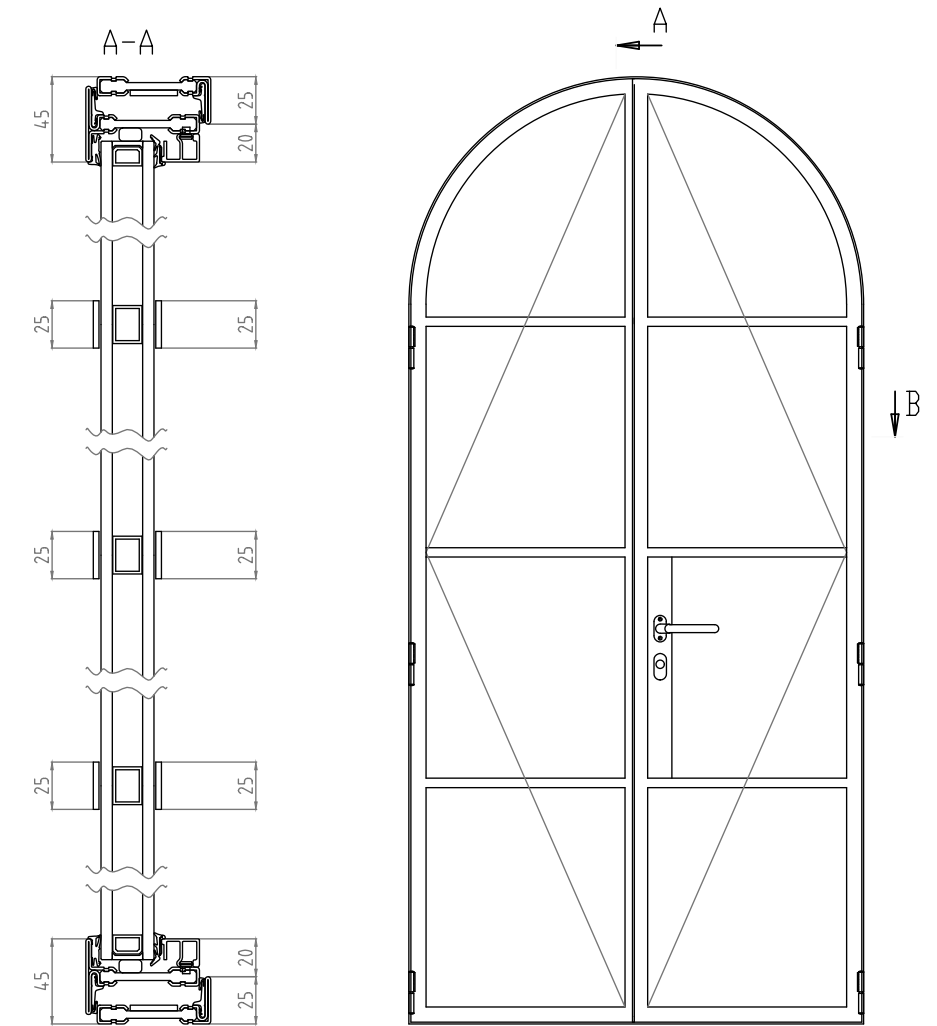

ARTE2.0 | Arched Door | Double Arched Door

Style: Double Door
Material: Galvanized, thermally broken steel
Lock: Multipoint secure locking
Colour: RAL's, Powder coated, anti- corrosion
Location: External
Glass: Tempered, double or triple glazed
Glass Style: Clear | frosted | sun protected
Description: Slim, distinctive, solid

Doors

PI30 | Double Door with Sidelight

Style: Double Door
Material: Hot Rolled Steel
Colour: RAL9005 | Blackened
Location: Internal
Glass: Tempered
Glass Style: Clear | Reeded | Frosted
Description: Slim, distinctive, solid

C-C

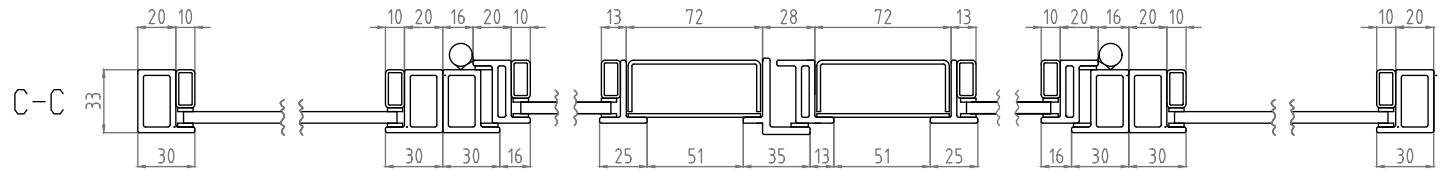

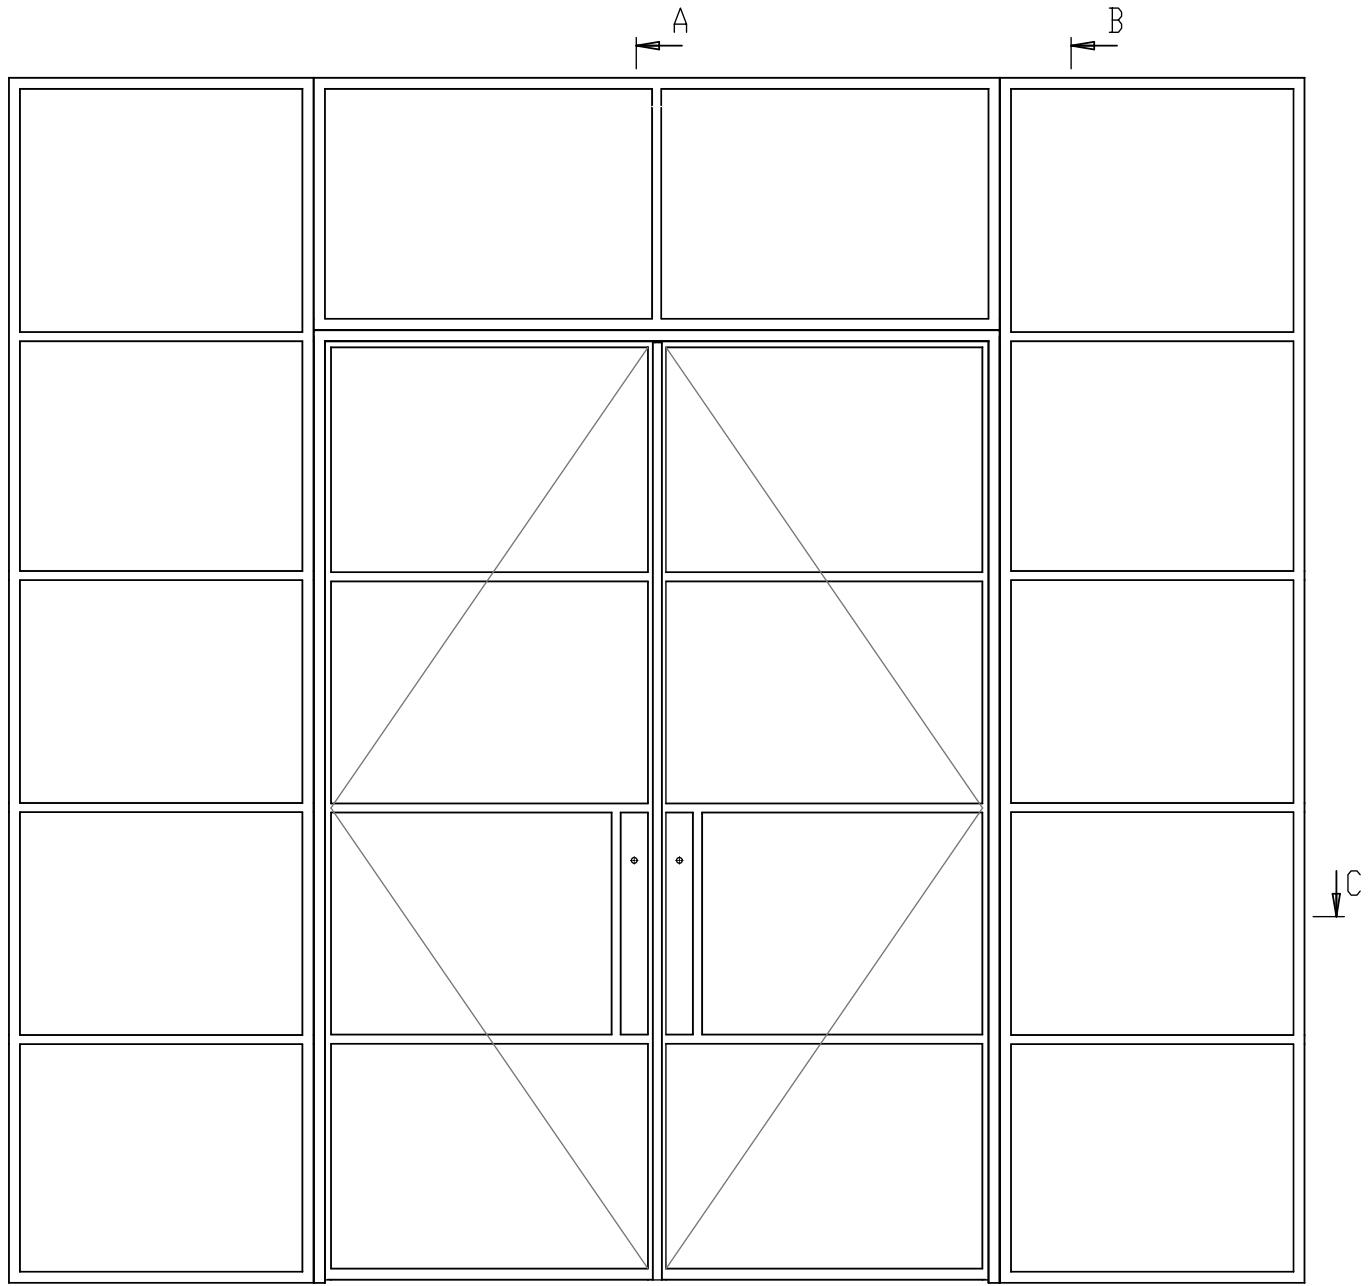

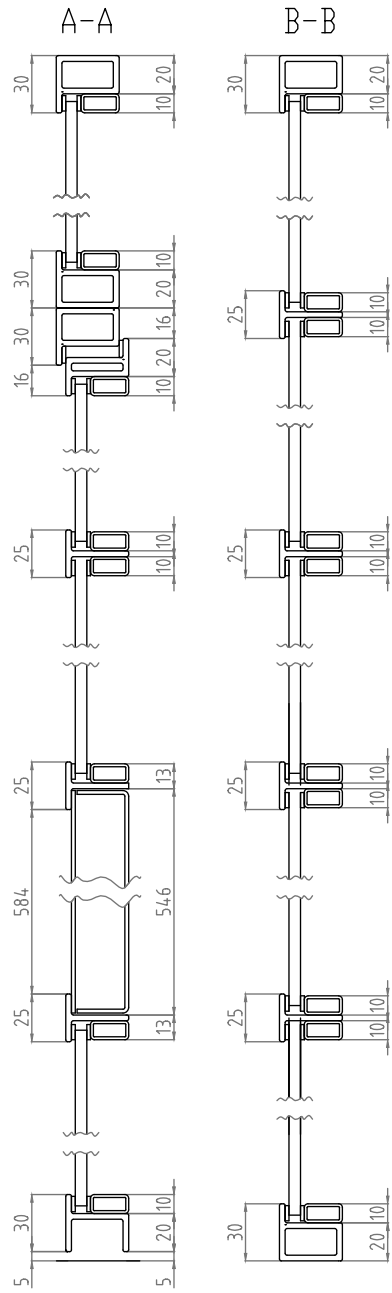

Doors

PI30 | Double Door with Sidelight & Toplight

Style: Double Door
Material: Hot Rolled Steel
Colour: RAL9005 | Blackened
Location: Internal
Glass: Tempered
Glass Style: Clear | Reeded | Frosted
Description: Slim, distinctive, solid

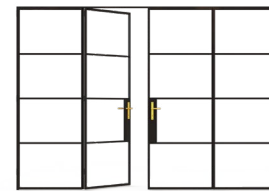

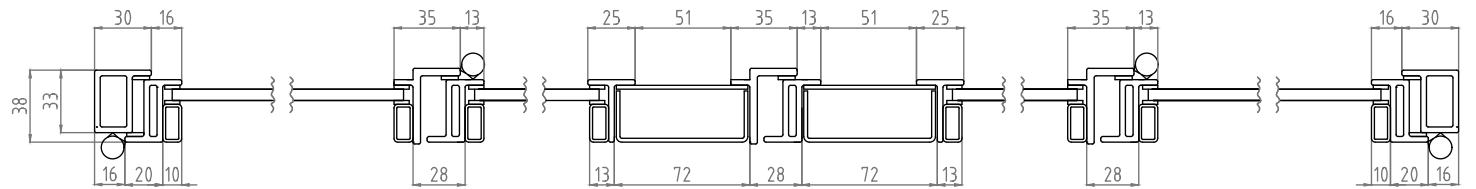

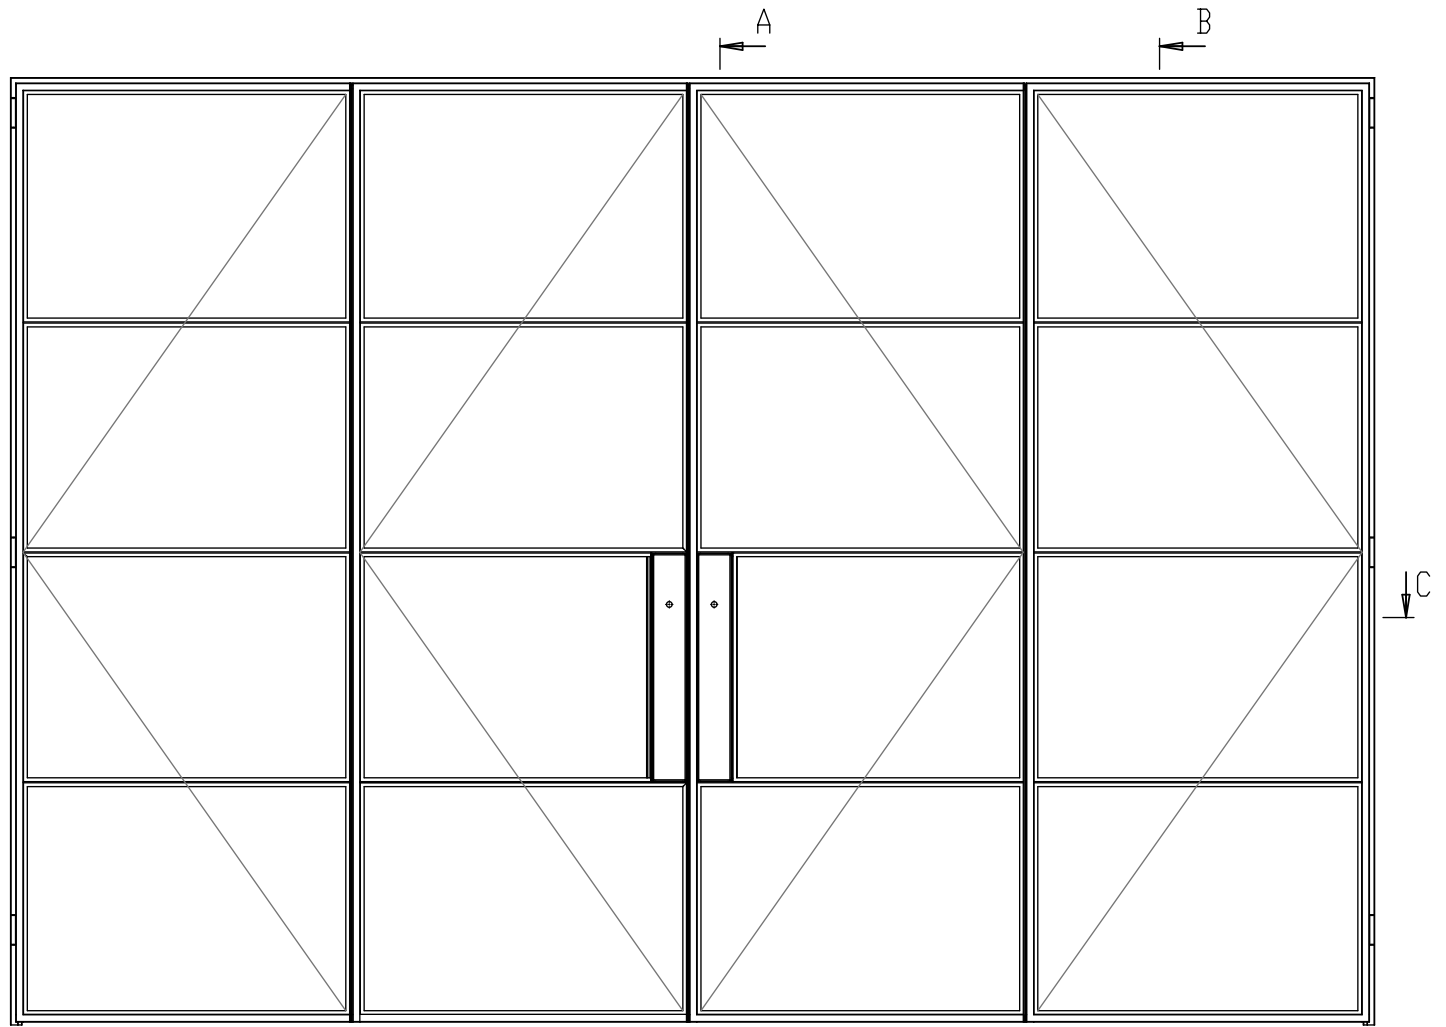

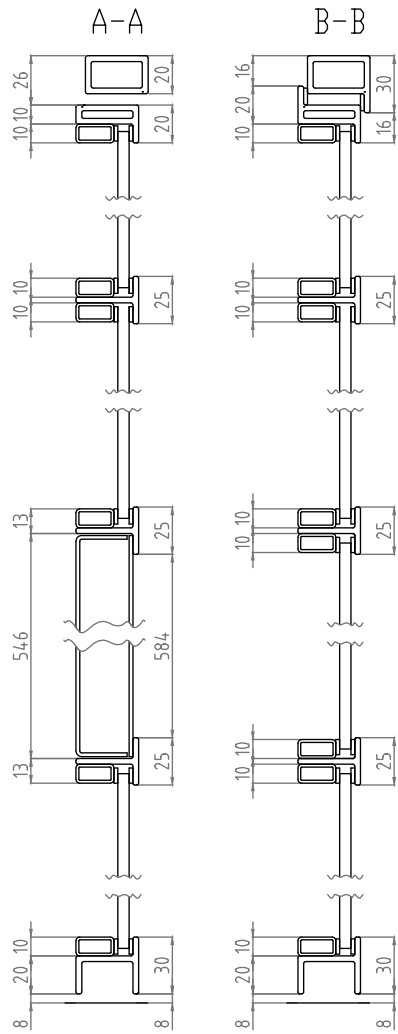

Doors

PI30 | Bi-folding doors

Style: Bi-folding doors
Material: Hot Rolled Steel
Colour: RAL9005 | Blackened
Location: Internal
Glass: Tempered
Glass Style: Clear | Reeded | Frosted
Description: Slim, distinctive, solid

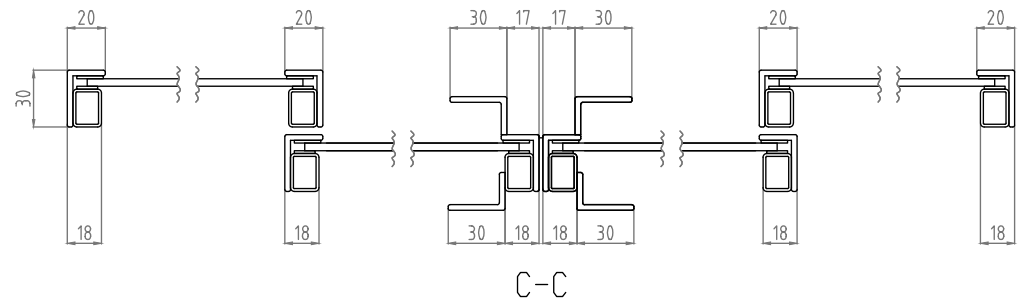

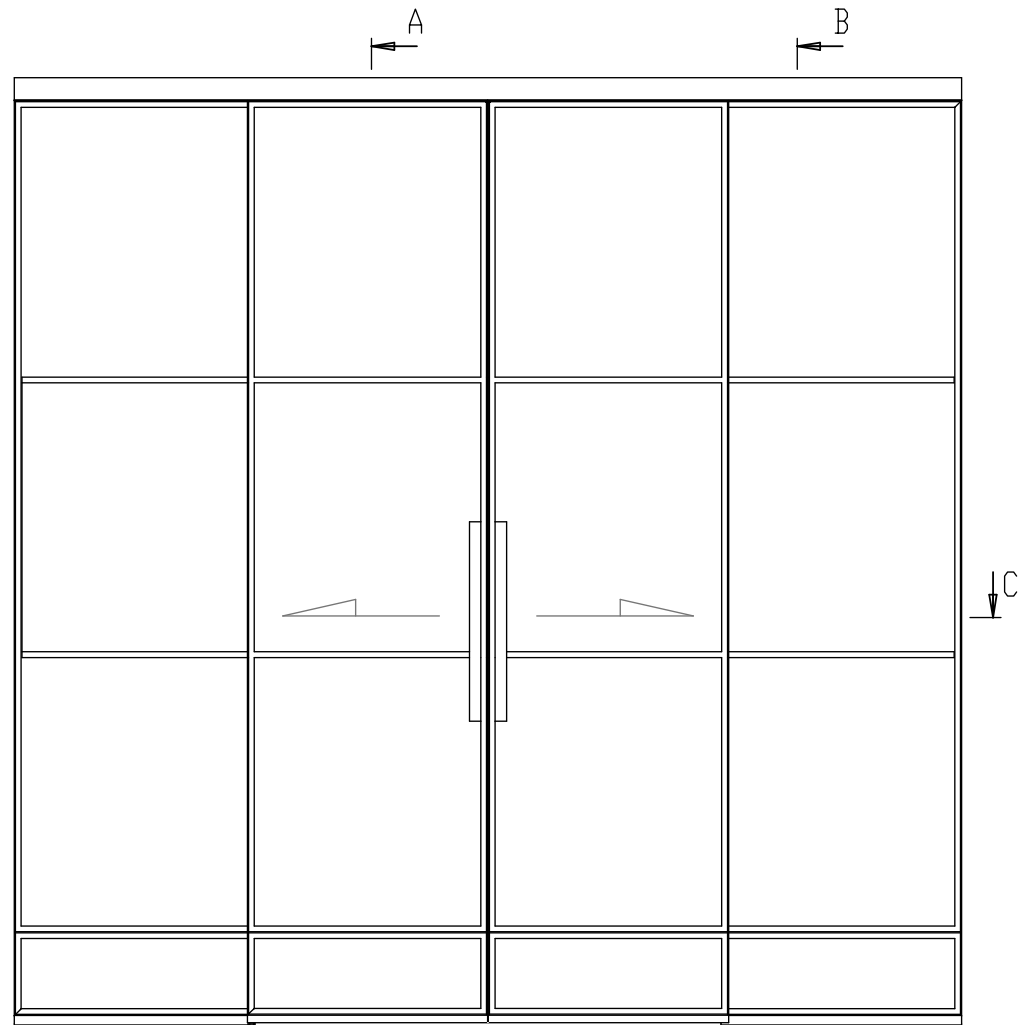

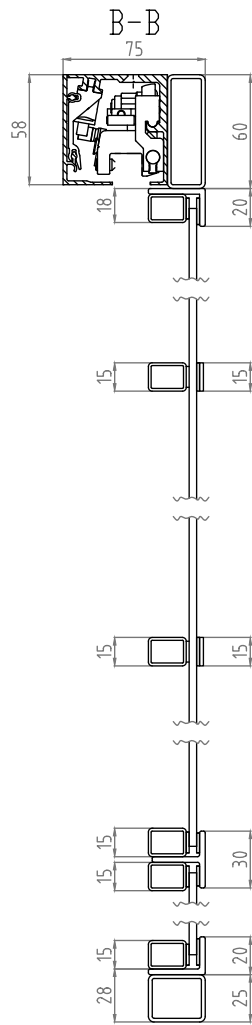

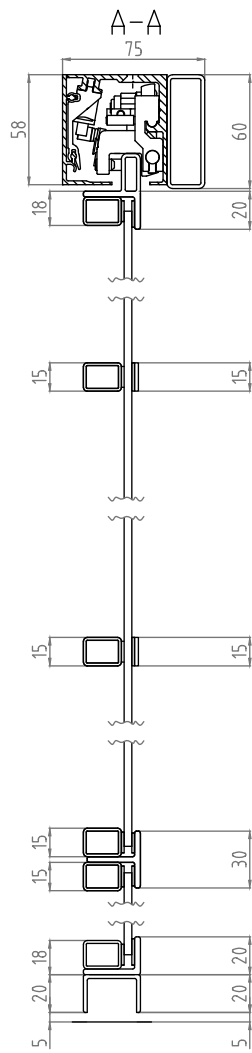

Doors

PI30 | Sliding doors

Style: Bi part -Sliding doors
Material: Hot Rolled Steel
Colour: RAL9005 | Blackened
Location: Internal
Glass: Tempered
Glass Style: Clear | Reeded | Frosted
Description: Slim, distinctive, solid

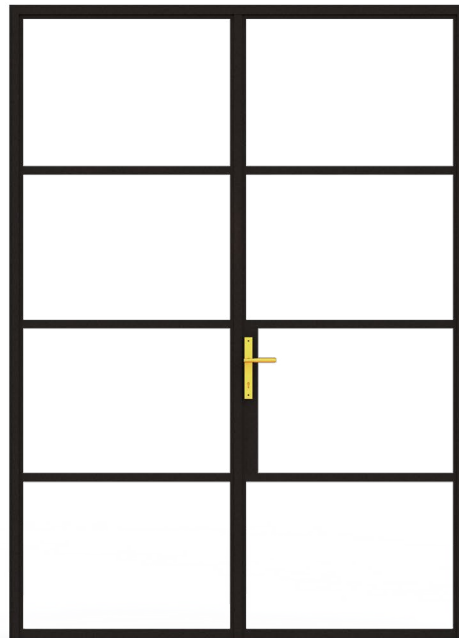

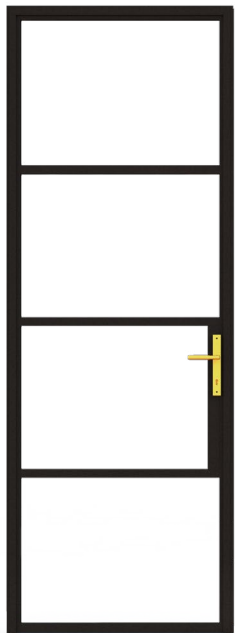

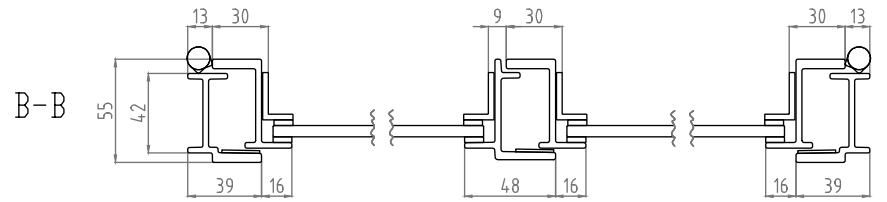

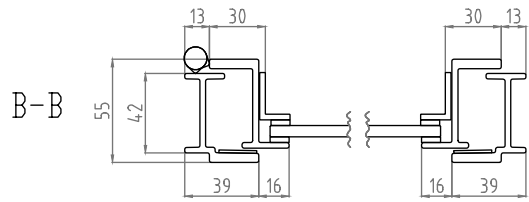

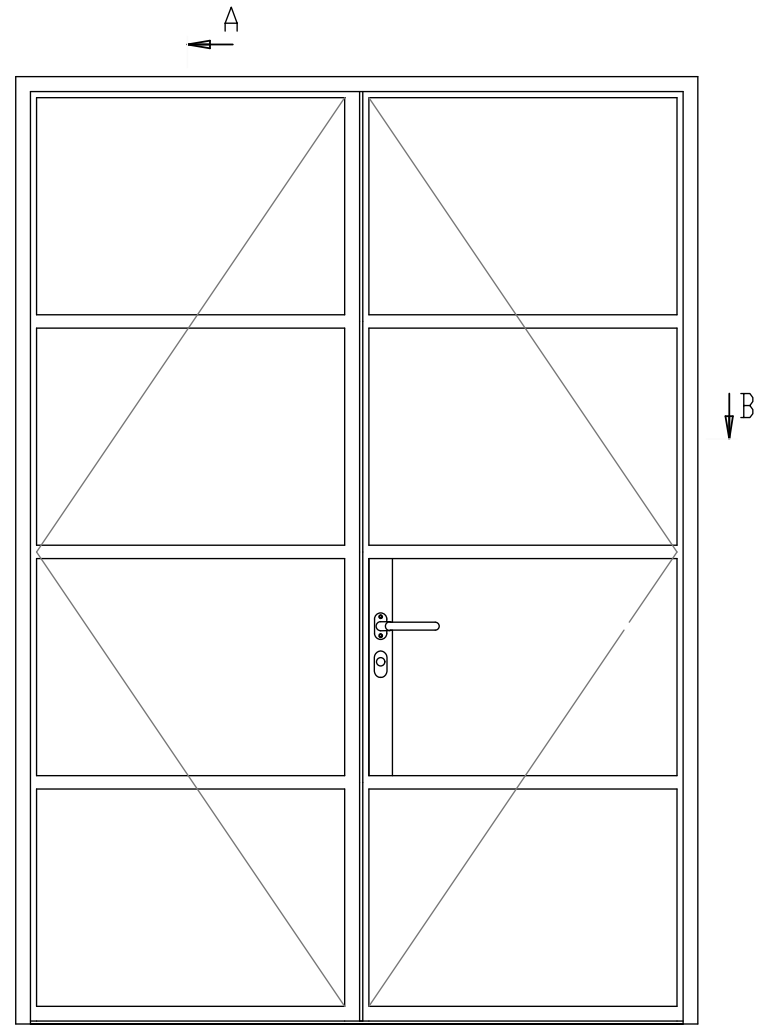

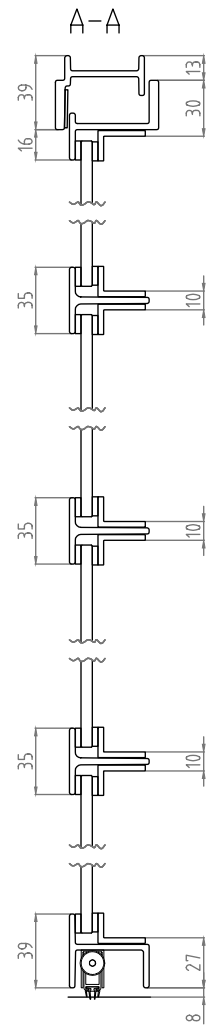

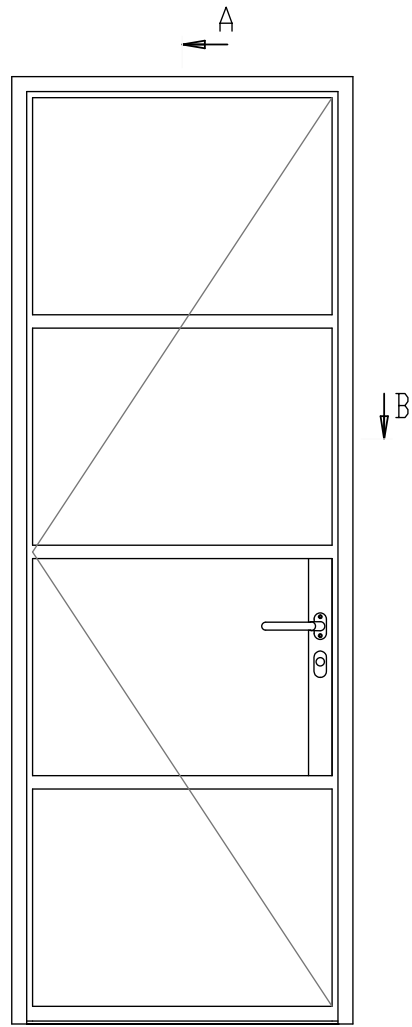

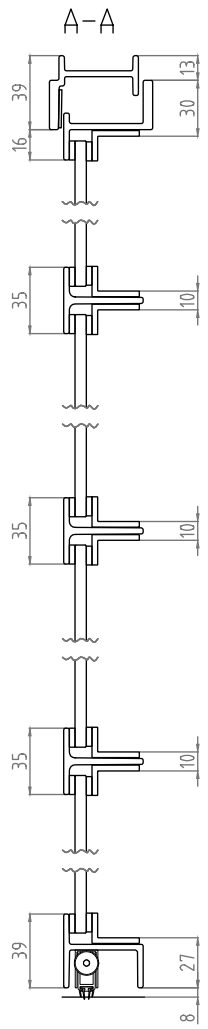

FIRE Doors

W40 E30 | Single Door | Double Door

Style: Single Door
Material: Hot Rolled Steel
Colour: RAL9005 | Blackened
Location: Internal
Glass: E30 , Integrity
Glass Style: Clear
Description: Slim, distinctive, solid
Performance: 30 min fire integrity (E30)

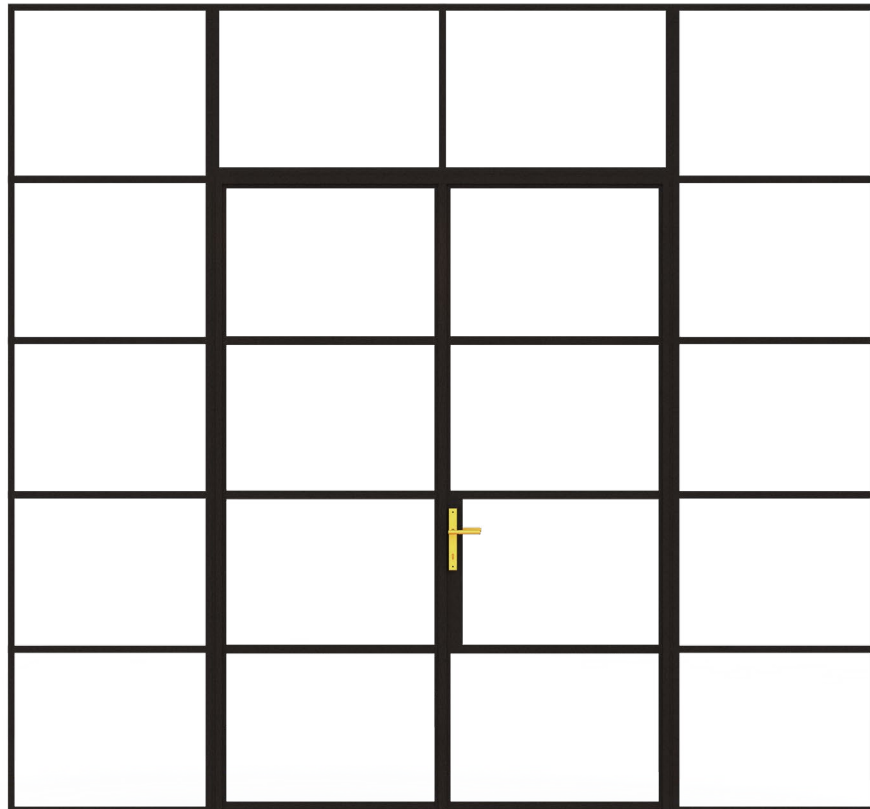

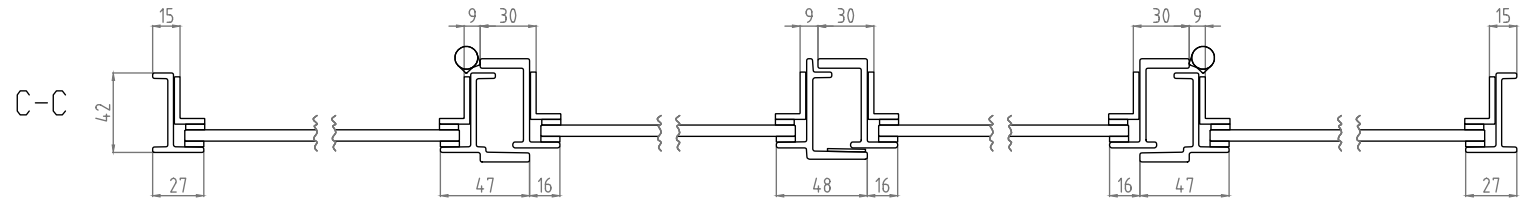

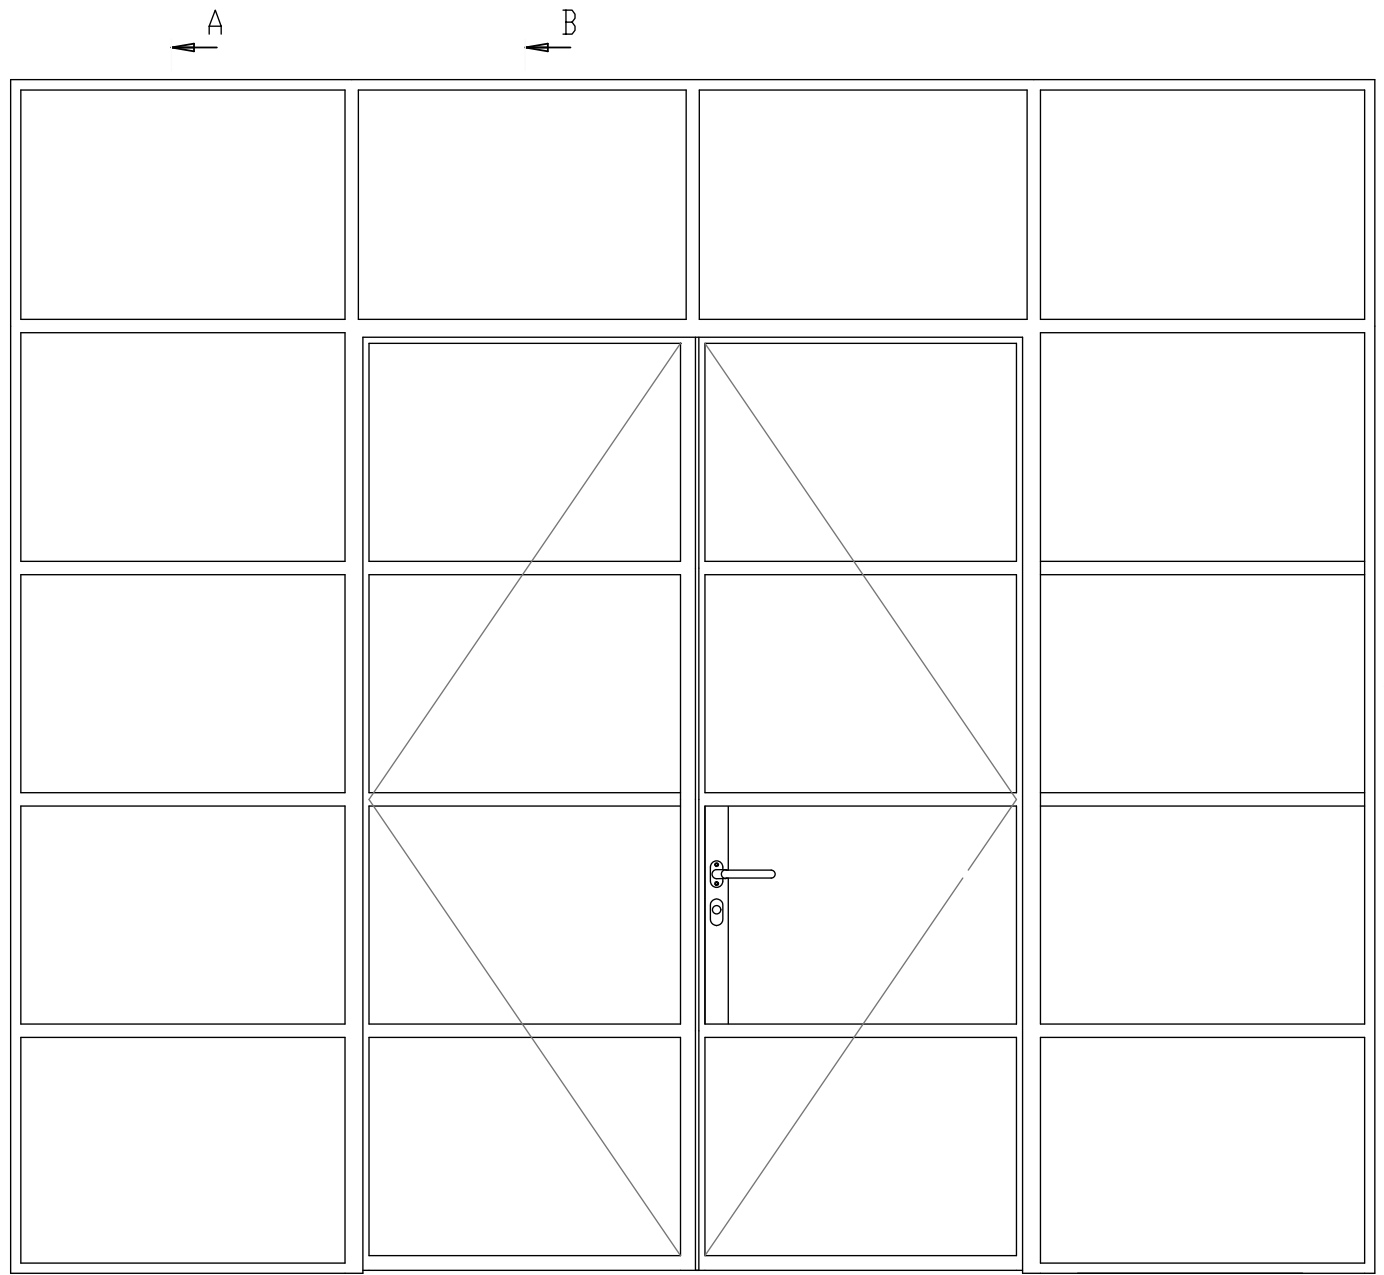

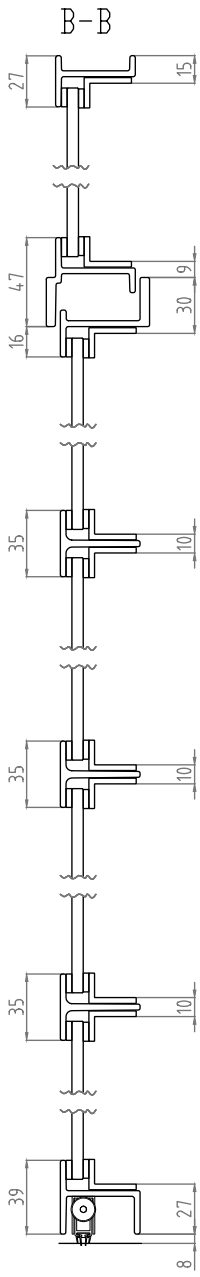

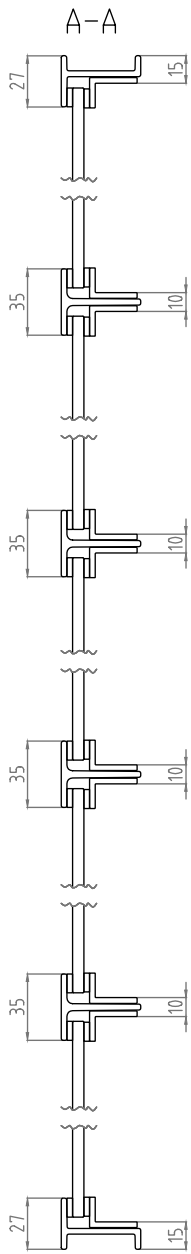

FIRE Doors

W40 E30 | Double Door with Sidelights & Toplight

Style: Single Door
Material: Hot Rolled Steel
Colour: RAL9005 | Blackened
Location: Internal
Glass: E30 , Integrity
Glass Style: Clear
Description: Slim, distinctive, solid
Performance: 30 min fire integrity (E30)
