

Kinetico HYDRO® ECO™

Tankless Reverse Osmosis System

Cleaner* Water. On Demand.

**A smarter way to stay
refreshed and hydrated.**

- Tankless, on-demand water
- Water-saving, 2:1 efficiency
- Smart alerts & LED feedback
- Smaller, space-saving design

What Makes the Kinetico HYDRO® ECO™ Tankless Reverse Osmosis System Different?

Certified to significantly reduce lead, arsenic V, chlorine, chromium III, chromium VI, copper, fluoride, TDS, mercury, and heavy metals while improving the taste, smell and appearance of your water.

LED System Indicator Lights: Real-time system feedback through LED indicators on the system and faucet—providing clear status updates and filter replacement reminders.

Built-in Leak Detection: Proactive monitoring with audible alerts and LED notifications—helping detect leaks early and protect against potential water damage.

Long-Lasting Filters: The combined Pre/Post Filter cartridge treats 950 gallons (or 1 year) while the Reverse Osmosis cartridge treats 1900 gallons (or 2 years) before replacement.

Compact Size: Up to 75% smaller footprint than traditional tank-based systems—fits easily in compact, under-sink spaces with a clean, modern installation.

Quiet Design: Minimal noise or vibration when in use.

Easy Filter Changes: Takes less than a minute per filter, with no spills or mess.

Lead-Free Faucet: Available in chrome, brushed stainless, and matte black.

Efficient Operation: Delivers up to a 2:1 pure-to-drain ratio—recovering more water per gallon filtered to reduce waste without compromising performance.

Two-Year Warranty: Dependability, peace of mind.

Certified Better Water: The HYDRO® ECO™ system is WQA Certified, delivering independently verified performance for cleaner, better-tasting water.

600 GPD System only.

All contaminants reduced by this system are listed in the performance data sheet. Scan the QR code or visit www.kinetico.com to view the system's performance data sheet.

Tested and certified by WQA against NSF/ANSI Standards 42, 53, 58, and 372 for the reduction of claims specified on the Performance Data Sheet. Conforms to CSA Standard B483.1 - Drinking Water Treatment Systems.

*Cleaner means less impurities than the water that went into the Kinetico HYDRO® ECO™.

This system has a 65% percent efficiency rating in the production of treated water. Efficiency rating means the percentage of the influent water to the system that is available to the user as RO treated water under operating conditions that approximate typical daily usage. This means that the system will send 0.53 gallons of water down the drain for every gallon of treated water it produces.
