

Outpost

by Pliancy

Basecamp

Need to shore up your security posture, but not sure where to start? We've got you covered. Basecamp is Outpost's ground-up security offering that prepares you for investor interest, compliance audits, and other activities that put your business under a magnifying glass.

1 RISK ASSESSMENT — 2 POLICY CREATION — 3 QUARTERLY REVIEW — 4 ANNUAL REVIEW

Basecamp includes a full assessment, customized policies, and ongoing maintenance so you're ready for whatever life throws at you. Save the scrambles for breakfast—with Outpost, you can stay focused on your core business and leave security to us.

Risk Assessment

Forget one size fits all; Outpost's guidance is tailored to you. We'll learn the ins-and-outs of your operations, culture, and growth trajectory to provide personalized security recommendations. Our team will also:

- Connect **Drata**, a compliance and security platform with AI-powered DDQ assistance, to your environment
- Suggest **compliance and governance** programs, models, and policies
- Discern your **risk tolerance** and risk threshold
- Share information security advice and **best practices**

Policy Creation

Based on our phase one intel, we'll develop comprehensive policies to cover your bases, a handbook for employee reference, and a roadmap for long-term security planning.

- Written information security policy (**WISP**), including Acceptable Use, Access Management, Passwords & Authentication, Endpoint Management & Protection, Encryption, Data Management, Business Continuity and Disaster Recovery (BCDR), and Vendor Management
- Information security policy **handbook**
- Information security **roadmap**

Quarterly Review

"Set it and forget it" may work for a rotisserie oven—but use it as a security approach and you're just asking to get burned. Throughout the year, our team will monitor:

- Roadmap **implementation progress**
- **Security baselines** across your environment
- Logging retention and archiving
- Workflow and **process adjustments**
- Drata security modules

Annual Review

Each year, Outpost will reassess your security program and update security program elements in response to how your business has changed and how your needs have evolved.

- **Revisit existing policies** and develop new policies
- Update handbooks and roadmap
- **Drata** renewal
