

THE LEADER IN SELF SUPPORTED STEEL ROOFING

PROFLEX

Proflex, a division of the M&B Group, has revolutionised the roofing industry with its groundbreaking Self Supported Steel Roofing solutions. Since 2001, Proflex has been a pioneering force in India for this roofing technology. With its own crane fleet and cutting-edge American equipment, Proflex offers innovative roofing solutions that effectively addresses all your pain points.

Renowned for innovation, strength and design flexibility, Proflex roofs are made from galvalume, one of the best pre-coated steel products for roofing. These roofs exhibit exceptional corrosion resistance, low heat transmission and suitability for extreme environmental conditions.

Proflex provides comprehensive roofing solutions, encompassing conceptual sketches, authentic technology, structural load reactions data and project management support.

M&B GROUP

M&B Group has a strong legacy of over seven decades in the engineering and construction industry.

With an INR 1000 cr+ annual turnover, the Group primarily provides customer specific turnkey solutions for infrastructure and engineering projects. The unparalleled engineering acumen of the team enabled the Group to chart new frontiers in diverse areas like power, irrigation, shipping, railways, industrial infrastructure, PEBs, highways, bridges and flyovers. A convergence of the best brains and the best equipment that ideates and translates construction and infrastructure dreams into reality has made the Group a name to reckon with.
