

KGAL INVESTOR DAYS

Prague (CZ), 10–11 June 2026

Experience KGAL's new PV and storage asset

Guided technical site experience

Learn how hybrid assets (PV + Storage) are becoming essential to capturing market volatility and securing long-term IRRs — and why the transition from coal to renewables in Central Europe makes KGALs „Saxonië“ a showcase for this structural shift.

European energy transition outlook

Insights into how countries' energy strategies differ, NECP updates, and regulatory environment.

Investment opportunities

KGAL's high conviction trades across European markets discussing wind, PV and storage pipelines, market mechanisms, and long-term growth potential.

Networking in Prague

High-quality evening reception in an exclusive setting – connect with market experts, partners and fellow investors.
