

Grace Cassie

UX Designer, Developer, Accessibility Lead, QA, and CMS Trainer

My background in Graphic Design first introduced me to the world-of-web, where I fell in love with the process of front-end dev work in an undergraduate elective class. Since that class, I have gravitated towards a concentration in UI/UX, with accessibility at the forefront of all my projects.

EXPERIENCE

Website Coordinator

STUN AGENCY, BATON ROUGE, LA

2024 - CURRENT

- Manages all website projects, from sitemap development to post-launch QA & testing.
- Utilizes HTML, CSS, and JavaScript on a daily basis to meet client development needs.
- Works with designers to ensure best practices in UI/UX, emphasizing accessibility in designs.
- Oversees all website launches, including final audits, domain pointing and post-launch testing.
- Manages and updates over 74 websites across WordPress
