

Project Manager/Engineer (m/f/d) – Head of Technical Sales & Project Management for Large Battery Storage Systems

Location: Stuttgart / Southern Germany / flexible
Admission: As soon as possible
Range: Energy Storage Solutions / Large-Scale Battery Storage
Enterprise: MegaLion Europe GmbH | www.megalion.eu

About us:

Megalion Europe is a fast-growing company in the field of innovative energy storage solutions with a focus on battery storage (BESS) for residential and commercial customers. To this end, we are working exclusively with one of the most innovative and trend-setting Chinese high-tech companies in the battery industry.

Our goal: to make the energy transition in Europe safer and more efficient – customer-oriented and with state-of-the-art technology.

To strengthen our team, we are looking for a Project Manager (m/f/d) who combines technical expertise with project management and accompanies our customer projects holistically from the initial idea to successful commissioning.

Your tasks:

- **Technical advice to customers** and development of tailor-made storage solutions
- **Preparation of technical specifications** and economic offers
- **Calculation and support in sales and tendering processes**
- **Overall project management of customer projects** (planning, implementation, acceptance)
- **Control and coordination of all trades** (electrical, construction, I&C, etc.)
- Monitoring of deadlines, costs, quality and occupational safety
- Technical interface between sales, engineering, purchasing and partners

- Support of customers throughout the entire project period

Your profile:

- Degree in electrical engineering, energy technology, industrial engineering or similar
- At least 5 years of professional experience in technical sales or project management, ideally in the field of PV systems, battery storage systems or energy infrastructure (e.g. transformers)
- Knowledge of system design, EMS, grid connection and project control
- Strong communicators in German and English, organized and tech-savvy
- Confident in dealing with MS Project, CAD, CRM/ERP systems
- Willingness to travel within Germany

What we offer:

- Helping to shape the energy transition in a promising growth market
- Independent projects with a lot of creative freedom
- International cooperation with the development, service and sales departments at the manufacturer MegaLion China
- Flat hierarchies, short decision-making processes and a committed team
- Further training opportunities and individual development prospects
- Helping to shape the company's development and setting up a technical and after-sales team
- Attractive salary package and flexible working hours

Sounds exciting to you?

Then we look forward to receiving your application with CV and a short cover letter to info@megalion.eu.

Shape the energy future in Europe with us – we look forward to seeing you!
