KUMEA Spray Technology (suzhou) Co., Ltd. is a research and growth, production, marketing, sale as one of the high-tech companies. It aims to provide professional spray products and solutions. Our spray solutions combine high quality spray nozzles with precise control, scientific analysis and custom fabrication. Solutions range from suggesting a different nozzle type, to conducting spray performance test in our exact environment, to automating your spray operation, Our brand is "**KUMEA**", Our products widely used in more than 60 industries as steel, automobile, environmental protection, electronics, paper, fire, food processing, spraying equipment, agricultural irrigation.

CONE SPRAY NOZZLES

FLAT FAN SPRAY NOZZLES

AIR ATOMIZING NOZZLES

AIR KNIVES SERIES

FULL CONE SPRAY NOZZLES STANDARD SERIES

MGG

1/8"to 3/4" (M) NPT
or BSPT

MG

1/8"to 1/2" (F) NPT
or BSPT

MGG-W

1/8"-1/2" NPT or
BSPT (M)

MHH

1/4"-1" NPT or
BSPT (M)

MHH-W

1/4"-1" NPT or
BSPT (M)

MHH-SQ

1/8"-3/4" NPT or
BSPT(M)

SMP

1-1/4"-4" NPT or
BSPT(M)

MA

1/8"-3/4" NPT or
BSPT(F)

MA-W

1/8"-3/4" NPT or
BSPT(M)

1/4QJJ+QH

1/8"-1/2" NPT or
BSPT(M)

APPLICATIONS

- ◎Cooling coke, primary metals and other materials
- ◎Creation/Dispersion of drops in chemical reaction processing
- ◎Dust control
- ◎ Fire Suppression/Prevention
- ◎ Gas scrubbing,washing,cooling Rinsing

FLAT FAN SPRAY NOZZLES

K

1/8"to 1" (M)
NPT or BSPT

MTK

1/4" Spray tip
NPT or BSPT

MTS

1/4" Sray tip
NPT or BSPT

U

1" to 2"(M)
NPT or BSPT
Mass-Flow

HVV

1/8"to 1/4" (M)
NPT or BSPT
Low-Flow

HU

1/8" to 3/4" (M)
NPT or BSPT
Mid-Flow

MEG

1/8 to 1/4"
NPT or BSPT
High Pressure

MEG-SSTC

Tungsten caride orifice insert
1/" NPT or BSPT(M)
High Pressure

MJ

3/8" 1/2" (F)
NPT or BSPT

MJJ

3/8" 1/2" (M)
NPT or BSPT

MP

3/8" 1/2" (M)
NPT or BSPT

MK

1/8"-1/2"(Quick spray tip)
NPT or BSPT

APPLICATIONS

- ◎ Parts washing/rinsing
- ◎ Pressure washing/ Gas Washing/ Vehicle Washing
- ◎ Surface preparation
- ◎ Rinsing equipment
- ◎ Dust control
- ◎ Fire suppression/prevention

AIR ATOMIZING NOZZLES

APPLICATIONS

- ◎ Die lubrication
- ◎ Spray injection
- ◎ Moistening
- ◎ Web spraying
- ◎ Pattern lubrication

Body and Core Materials:
Brass/SS/Ceramics

JAU Series

Standard JAU
1/4" Air & Liquid inlet connection
1/8" Air & cylinder inlet connection

6218-1/4"
Single Air Line JAU

1/8" JJAU
Compact Type

16883-1/8" JJAU
Adjustable Type

AIR CAPS Compressed Air

Air Cap+ Fluid Cap

Round spray air caps
produce a narrow, full
cone round spray
pattern

Wide angle round spray and
360° circular spray air caps
produce hollow cone,wide
angle round spray and 360°
circular spray patterns.

Round spray and flat
spray air caps
produce round spray
and flat spray
patterns

External mix air cap
produce a flat spray
pattern.

AIR NOZZLES	Model	Usage Items	Max.Coverage at 6" (150mm) from
	AA727	KUMEA AIR NOZZLE	57mm
	AA707	*Use when air recycling is required	Produce a concentrated targeted
	Y767	*Offers highest impact of all products	****
	1/4 TT Blowing	*When there are existing compressed air lines	419mm
	46760 Mainfold	*Allows for customizable air stream	1792mm
	39190 Mainfold	*Offers the widest range of materials	406mm
	36275 Adjustable ball joint	KUMEA AIR NOZZLE ACCESSORIES	
	Flexible Pipe	Adjustable ball joint for changing the spray distance	
	Magnet base	Bring the air into special destation by flexible pipe	
	Air Knife	KUMEA LOW FLOW AIR KNIFE	76mm
		When there are existing compressed air lines	152mm
		When there is limited mounting space for air knives	305mm
		When the process can't handle any temperature rise in the air	457mm
		When the knives can be mounted close to the parts	610mm
		When a continous of compressed air is needed	
	Air Amplifier	KUMEA AIR AMPLIFIER	19.1mm
		Use for more direct air	31.8mm
		Use when air recyling is required	50.8mm
		Ideal for robotic application	101.6mm
		Allows for adjustability in performance	
		Can be used as an exhaust device	
	Air Blower	AIR KNIFE DRYING & BLOWING ACCESSORIES	7.5-14.1KW
		When the total combined length of knives needed is over 3m	
		offer the longest length of knife combinations	
		When a continous of compressed air is needed	
		Offers the cleanest air available	
		lowest operating energy costs	
		own air source	
		Offers the most versatility in application
