Hi there!

Loga works like your embedded design team, minus the hiring, hand-holding, or overhead.

You choose the subscription that fits your needs and submit requests in your own project board.

We work through them one by one, with clear priorities, fast turnarounds, and proactive thinking baked in.

It's a creative partnership that keeps up with your *momentum*.

Creative
support that
thinks  like a
partner

HOW IT
WORKS

Loga has created a better system

There are loads of great designers out there. But Loga isn't *just* design (even though we're *great* at it!). We've built a better system. One that plugs into your workflow in minutes and prioritises speed, strategy, and scalability.

Say hello

Talk to us about your goals, priorities and timelines.

Choose your membership

We'll recommend the right subscription package to hit your milestones, whether that's brand, sales, or launch support.

Get your own project HQ

We'll invite you to your dedicated project board, where you can submit requests anytime of day or night.

Let's go!

You submit a request, we deliver. Most projects are turned around in 48 hours with updates, comments and versions along the way.

WHY
LOGA

So, we'll take care of the **doing**, while you take care of the thinking 🥰

WHAT'S
INCLUDED

One subscription to rule them all...

**Pitch decks**

Investor decks, sales decks, board updates, we help you make your point (and make it look great).

**Ad + social tiles**

Static, animated, social: scroll-stopping visuals for paid and organic channels.

**Sales enablement**

Brochures, leave-behinds and one-pagers designed to support your sales and success teams.

**Website design (*sprint*)**

From scratch or as a glow-up. Webflow builds or dev-ready designs.

**Landing pages**

Designed to convert, not just exist. Great for launches, products, or campaigns.

**Video support**

Editing, motion, and social-ready formats for video podcasts, explainers, and promotional clips.

**Content support**

Messaging, microcopy, and content frameworks for emails, landing pages, and social posts.

**Full brand identity (*sprint*)**

Logos, visuals, guidelines, the full system to launch (or relaunch) with confidence.

WHAT'S
INCLUDED

...and one board to find them

You'll be invited to your personal Asana board, where all tasks, their status and assets will be kept up to date.

Personal project board

EXAMPLES
OF WORK

Great ideas deserve momentum

We created the Loc Builder brand from scratch, and went on to design their website, campaign assets and emails

P.S - Our vision

We want to make marketing feel *doable* again. So we've built a *system* where founders can stop stalling and marketers can stop drowning.

Because when execution catches up to ambition, that's when good brands become *great* ones.
