Source International Does Not Warrant

Failure due to normal wear and tear
Customer's Own Material
The natural variation of color, grain, and texture in wood and leather
The natural fading of materials including wood, fabric, and leather, resulting in color change over time
Marks, scars, or wrinkles occurring naturally in leather
Dye lot variations in fabric, or leather
Color matching of natural materials
Change in color resulting from exposure to chemicals, such as those found in cleaning products or exposure to sunlight or ultraviolet rays.
Puddling in leather, vinyl, or fabric
Felt glides

WOOD FINISHES

Wood finish names such as Mahogany and Cherry describe color only, not wood species. Finishes are applied to maple, beech, or similar woods. Wood surfaces have natural variations in grain and porosity and absorb finishes differently which may result in variations of final color. Finishes will darken and change color over time and with exposure to sunlight. Premium veneer names such as walnut and oak, describe the wood species and have a clear coat finish.

PAINTED WOOD FINISHES

Please note the lifetime structural warranty does not apply to painted finishes. Painted finishes should be specified with consideration of the environment they will occupy. Although a clear sealer coat is applied during production these finishes are topical and they can scratch, dent or mark if treated in a rough manner. If left in direct sunlight for extended periods of time you will notice the color will fade and/or change.

Upholstery and Planning Notes

Layout plans should be sent with PO when possible
CAD 2D, 3D, Revit and CET symbols available on website
Source International will cut randomly off the bolt with our best layout discretion as standard procedure
Solid fabrics with some stretch are best suited for the curved seating units in Scape
Fabrics with stiff backing can cause upholstery wrinkles on the curved units
For patterns, please let us know if a specific pattern layout is desired or if you want pattern matching from unit to unit
Additional fabric will be required and costs will need to be specially quoted based on total quantities
Fabrics in our graded in program are not automatically approved for all Scape units
To submit fabrics for approval, please note the products they will be used on and send to:

The lower half of the image features abstract white line art on a solid blue background. The lines are thin and fluid, creating several overlapping loops and curves that sweep across the bottom and right side of the frame. One large loop starts from the bottom left, curves upwards and to the right, then loops back down and to the left. Another line starts from the top right, curves down and to the left, then loops back up and to the right. These lines intersect and overlap, creating a sense of movement and organic form.
