

Peninsula Random Ashlar Walling

This rustic natural limestone walling combines golds, creams and greys with fractal sized quartz and limestone deposits to form a truly unique colour palette.

The split face and sides highlight its individuality, synonymous with natural stone. These gentle tones lend themselves to both internal and external applications, from limestone cladding features and retaining walls to facades.

Peninsula is available in both random quadrilateral and irregular geometric formats. We also offer sawn-back and one-piece corners and capping for efficient installation without any compromise on appearance.

Stone Colour

Gold & Grey

Tile Edges

Split

Ordering Details

Leadtime for product is 14 - 16 weeks unless instock

Sealing & Cleaning

Tumbled recommends Sealing all Natural Stone Tiles

For more information on caring for your natural stone please refer to our website www.tumbled.com.au

Please note

If you are installing your stone without a grout joint we recommend an extra 15-20% for wastage. This then allows the stonemason to cut and shape the stone to ensure the joints are butt-jointed. We also recommend the installer unpacks each crate of stone and use the mix of the sizes supplied. Tumbled will not exchange smaller pieces for larger pieces, it is the installers responsibility to use all the sizes supplied.
