

NATURAL STONE FLOORING & WALLING

Karta Limestone

tumbled

tumbled.com.au

Karta Limestone is distinguished by its warm, consistent coloring that spans across the caramel hues, offering a unified and sophisticated aesthetic. The stone's surface is adorned with subtle veining and fossilized inclusions, which add depth while maintaining a cohesive look. Despite its rugged appearance, Karta Limestone remains soft underfoot, providing a comfortable surface for walking. The natural texture of the stone, combined with its warm tones and refined patterns, creates an inviting and elegant ambiance suitable for both contemporary and traditional settings. Its balance of ruggedness and softness makes it a versatile choice for various applications, from flooring to wall cladding and beyond.
