Available in popular regular sizes and large format, the undulating surface is an added feature. A Matt SmoothGrip finish enables the designer to have one tile through the internal space, onto external walls and floors, in domestic and light commercial settings. This rectified glazed porcelain is available in multiple colours reproducing the feel of natural stone.

**Our new SmoothGrip finish uses the latest nano-surface technology to produce a smooth surface, with a high degree of slip resistance. This new surface provides a durable, tactile, low maintenance finish with aesthetic appeal, without sacrificing safety.

*Tiles may vary in sizing, weight, colour, pattern, veining, texture, durability, density, surface and finish from batch to batch. Slip ratings serve as an indication and may vary for each batch of tiles. It is recommended that a new test be performed for each batch of tiles if a slip rating certificate is required. The product images shown are for illustration purposes only and are not an exact representation of the product.
